Author Correction: Ethical challenges experienced by prehospital emergency personnel: a practice-based model of analysis

Henriette Bruun^{1,4*} , Louise Milling¹ , Søren Mikkelsen^{1,2}  and Lotte Huniche^{1,3} 

Author Correction: BMC Medical Ethics (2022) 23:80
<https://doi.org/10.1186/s12910-022-00821-9>

Following publication of the original article [1], the author has changed the table 2 and it should read as follows:

Values in the context of caring for patients

Preventing harm and doing good for patients and relatives
Respect for patient autonomy and right to self-determination in consideration of the cognitive ability of the patient
Respect for the contributions and needs of relatives in consideration of their cognitive abilities, their intents, and relation to the patient

Values in the context of the prehospital emergency unit

Acting in accordance with the duty to help, clinical guidelines and legal requirements
Forming a treatment alliance with patients as individuals
Providing equal and fair treatment to patients, irrespective of age, gender, religion, and social status
Respecting hierarchical structures and the line of command of the organisation
Guarding the safety of patient, self, colleagues and others involved
Evaluating potential cost and benefit of alternative uses of medical expertise

Values in the context of external collaboration

The original article can be found online at <https://doi.org/10.1186/s12910-022-00821-9>.

¹The Prehospital Research Unit, Region of Southern Denmark, Odense University Hospital, Odense, Denmark
Full list of author information is available at the end of the article

Respect for non-prehospital healthcare professionals and external collaborators, including their professional assessment of the situation, their tasks and areas of responsibility
Preventing harm and doing good for bystanders
Respecting bystander views and needs, in light of their cognitive abilities, their intents and relationship to a patient

Values pertaining to prehospital emergency personnel

Acting in accordance with the value system of their specific health profession (EMT, PM, physician)
Acting in accordance with their personal value system

The original article has been corrected.
