Publikationer

Comparative study on environmental impacts of reusable and single-use bronchoscopes

Sørensen, B. L. & Grüttner, H., 15. nov. 2018, I: American Journal of Environmental Protection. 7, 4, s. 55-62

Environmental impacts of reuse versus single use

Sørensen, B. L. & Grüttner, H., 11. okt. 2018.

Assessment of Textile Service as a circular economy business: -for internal use only

Grüttner, H. & Sørensen, B. L., feb. 2018

End of Life Textile survey

Sørensen, B. L. & Grüttner, H., feb. 2018

Framework/catalogue of reuse/recycling options

Grüttner, H. & Sørensen, B. L., feb. 2018

På vej mod det cirkulære samfund: En fortælling om mulighederne i den cirkulære økonomi – illustreret med eksempler fra innovationscentret Rethink Resources

Grüttner, H., Melchiorson, H. & Hamann, D., mar. 2017, 51 s.

Environmental impacts of detergents and benefits of their recovery in the laundering industry

Giagnorio, M., Amelio, A., Grüttner, H. & Tiraferri, A., 2017, I: Journal of Cleaner Production. 154, s. 593-601

Idea catalogue for design optimisations in the product life cycle: Assembly methods and design for the environment

Skov Hansen, P. M. & Grüttner, H., 2017, Centre for Life Cycle Engineering, SDU. 31 s.

Ultrafiltration to reuse laundering wash water: Evaluation of membranes and permeate flux

Giagnorio, M., Søtoft, L. F., Tiraferri, A. & Grüttner, H., 2017, I: Desalination and Water Treatment. 62, s. 22-30

Giv de studerende ejerskab over deres cases

Fjerbæk Søtoft, L. & Grüttner, H., 2012. 1 s.

Giv de studerende ejerskab over deres cases

Fjerbæk Søtoft, L. & Grüttner, H., 2012, I: xx ting du kan gøre i din undervisning - inspiration fra DUNK12. 1 s.

Holistic approach for integrated water treatment in industry applied in university master course

Grüttner, H. & Fjerbæk Søtoft, L., 2012. 9 s.

A socio-economic comparison of green and conventional products: (TV-sets, washing machines, textile services, bookshelves and copy paper)

Leinikka Dall, O., Wenzel, H., Grüttner, H. & Thomsen, H., 15. aug. 2011, *Life Cycle Management Conference 2011: LCM, August 28 – 31, 2011 – the dahlem cube, Berlin.* s. 1-10

Society environmental economic benefits of swan-labelled workwear service

Grüttner, H., Dall, O., Thomsen, H. & Wenzel, H., 15. aug. 2011, *Life Cycle Management Conference 2011: LCM, August 28 – 31, 2011 – the dahlem cube, Berlin*. s. 1-8

Samfundsøkonomiske gevinster og omkostninger ved grønne produkter

Thomsen, H., Wenzel, H., Leinikka Dall, O. & Grüttner, H., 2010, Miljøstyrelsen. 83 s. (miljøprojekt; Nr. 1349).

Pilot-scale testing membrane bioreactor for wastewater reclamation in industrial laundry

Andersen, M., Kristensen, G. H., Brynjolf, M. & Grüttner, H., 9. okt. 2002, I: *Water Science and Technology*. 46, 4-5, s. 67-76 10 s.

Reduction of fecal streptococcus and salmonella by selected treatment methods for sludge and organic waste

Jepsen, S. E., Krause, M. & Grüttner, H., 1. dec. 1997, I: *Water Science and Technology*. 36, 11, s. 203-210 8 s.

Regulating industrial wastewater discharged to public wastewater treatment plants: a conceptual approach

Grüttner, H., 24. nov. 1997, I: *Water Science and Technology*. 36, 2-3, s. 25-33

External and internal sources which inhibit the nitrification process in wastewater treatment plants

Sinkjær, O., Bøgebjerg, P., Grüttner, H., Harremoës, P., Jensen, K. F. & Winther-Nielsen, M., 4. jul. 1996, I: *Water Science and Technology*. 33, 6, s. 57-66 10 s.

Regulating specific organic substances and heavy metals in industrial wastewater discharged to municipal wastewater treatment plants

Grüttner, H., Munk, L., Pedersen, F. & Torslov, J., 14. nov. 1994, I: *Water Science and Technology*. 29, 9, s. 55-67 13 s.

Inhibition of the nitrification process in municipal wastewater treatment plants by industrial discharges

Grüttner, H., Winther-Nielsen, M., Jørgensen, L., Bøgebjerg, P. & Sinkjær, O., 1. jan. 1994, I: *Water Science and Technology*. 29, 9, s. 69-77 9 s.

Operator assisted optimization of sludge dewatering

Grüttner, H., 1. jan. 1991, *Treatment and use of sewage sludge and liquid agricultural wastes*.
