### **The effect of hyperbaric oxygen therapy in head and neck cancer patients with radiation induced dysphagia—a systematic review**

Philipson, B. B., Korsholm, M., Rohde, M., Wessel, I., Forner, L., Johansen, J. & Godballe, C., 2024, (E-pub ahead of print) I: *Clinical and Translational Oncology*.

### **The Relationship Between Tinnitus Annoyance and Work-Related Noise Exposure History in Older Adults With Sensorineural Hearing Loss.**

Houmøller, S. S., Tsai, L.-T., Wolff, A., Narayanan, S. K., Hougaard, D. D., Gaihede, M., Godballe, C. & Schmidt, J. H., 2024.

### **Diagnostic Accuracy of Up-Front PET/CT and MRI for Detecting Cervical Lymph Node Metastases in T1-T2 Oral Cavity Cancer-A Prospective Cohort Study**

Madsen, C. B., Rohde, M., Gerke, O., Godballe, C. & Sørensen, J. A., 9. nov. 2023, I: *Diagnostics*. 13, 22, 12 s., 3414.

### **A history of occupational noise exposure is associated with steep-slope audiograms and poorer self-reported hearing-aid outcomes**

Houmøller, S. S., Tsai, L.-T., Wolff, A., Narayanan, S. K., Hougaard, D. D., Gaihede, M., Hammershøi, D., Neher, T., Godballe, C. & Schmidt, J. H., 1. nov. 2023, (E-pub ahead of print) I: *International Journal of Audiology*.

### **A History Of Occupational Noise Exposure Is Associated With Steep-Slope Audiograms And Poorer Self-Reported Hearing-Aid Outcomes.**

Houmøller, S. S., Tsai, L.-T., Wolff, A., Narayanan, S. K., Hougaard, D. D., Gaihede, M., Hammershøi, D., Neher, T., Godballe, C. & Schmidt, J. H., 23. aug. 2023.

### **Missed cancer in the Danish head and neck cancer fast-track program: results from a tertiary cancer center**

Schmidt, I. G., Korsholm, M., Johansen, J., Sørensen, J. A., Godballe, C. & Bjørndal, K., aug. 2023, I: *Acta Oncologica*. 62, 8, s. 836-841

### **Epidemiology, outcomes, and prognostic factors in submandibular gland carcinomas: a national DAHANCA study**

Westergaard-Nielsen, M., Godballe, C., Eriksen, J. G., Larsen, S. R., Kiss, K., Agander, T., Uihøi, B. P., Charabi, B. W., Klug, T. E., Jacobsen, H., Johansen, J., Kristensen, C. A., Andersen, E., Andersen, M. & Bjørndal, K., jul. 2023, I: *European Archives of Oto-Rhino-Laryngology*. 280, 7, s. 3405-3413

### **Normative Voice Range Profile of the Young Female Voice**

Andersen, H. S., Egsgaard, M. H., Ringsted, H. R., Grøntved, Å. M., Godballe, C. & Printz, T., jul. 2023, I: *Journal of Voice*. 37, 4, s. 546-552

### **Impact of hearing aid technology level at first-fit on self-reported outcomes in patients with presbycusis: A randomized controlled trial**

Houmøller, S. S., Wolff, A., Tsai, L.-T., Narayanan, S. K., Hougaard, D. D., Gaihede, M. L., Neher, T., Godballe, C. & Schmidt, J. H., 1. jun. 2023, I: *Frontiers in Aging*. 4, 1158272.

### **Evaluation of Surgeon-Performed Ultrasonography With or Without Contrast Enhancement vs Scintigraphy in Patients With Primary Hyperparathyroidism**

Michaelsen, S. H., Bay, M., Gerke, O., Vestergaard, S., Graumann, O., Nielsen, V. E., Madsen, A. R., Bonnema, S. J. & Godballe, C., jun. 2023, I: *JAMA Otolaryngology - Head & Neck Surgery*. 149, 6, s. 531-539

### **Primary Hyperparathyroidism in Multiple Endocrine Neoplasia Type 2A in Denmark 1930–2021: A Nationwide Population-Based Retrospective Study**

Holm, M., Vestergaard, P., Poulsen, M. M., Rasmussen, Å. K., Feldt-Rasmussen, U., Bay, M., Rolighed, L., Londero, S., Pedersen, H. B., Hahn, C. H., Rask, K. B., Nielsen, H. H., Gaustadnes, M., Rossing, M. C., Hermann, A. P., Godballe, C. & Mathiesen, J. S., apr. 2023, I: *Cancers* . 15, 7, 16 s., 2125.

**Diagnosis of locally recurrent head and neck squamous cell carcinoma in the Nordic HNC centers and feasibility of the Odense-Birmingham definition**

Rohde, M., Eriksen, J. G., Pareek, M., Bratland, Å., Mäkitie, A., Hammarstedt-Nordenvall, L., Wessel, I., Lybeck, J. S., Mäenpää, H., Gebre-Medhin, M. & Godballe, C., 2023, I: *Acta Oncologica*. 62, 9, s. 1102-1105

**Inter- and Intrater Reliability and Agreement Among Danish Head and Neck Pathologists Assessing Extranodal Extension in Lymph Node Metastases from Oropharyngeal Squamous Cell Carcinomas**

Abdel-Halim, C. N., Rohde, M., Larsen, S. R., Green, T. M., Uihøi, B. P., Woller, N. C., Gerke, O., Høiland-Carlsen, P. F., Sørensen, J. A. & Godballe, C., dec. 2022, I: *Head and Neck Pathology*. 16, 4, s. 1082-1090

**The Impact of Post-Thyroidectomy Neck Stretching Exercises on Neck Discomfort, Pressure Symptoms, Voice and Quality of Life: A Randomized Controlled Trial**

Thorsen, R. T., Døssing, H., Bonnema, S. J., Brix, T. H., Godballe, C. & Sorensen, J. R., sep. 2022, I: *World Journal of Surgery*. 46, 9, s. 2212-2222

**Diagnosis of possible nasopharyngeal malignancy in adults with isolated serous otitis media; a systematic review and proposal of a management algorithm**

Rohde, M., Korsholm, M., Lüscher, M., Fast, S. & Godballe, C., jul. 2022, I: *European Archives of Oto-Rhino-Laryngology*. 279, 7, s. 3229-3235

**Vocal Outcome After Cordectomy by Transoral CO<sub>2</sub> Laser Microsurgery in Patients With Laryngeal Intraepithelial Neoplasia and Non-neoplastic Lesions**

Printz, T., Mehlum, C. S., Godballe, C., Iwarsson, J., Pedersen, S. G., Christensen, J. H., Jørkov, A. S. & Grøntved, Å. M., 19. jun. 2022, (E-pub ahead of print) I: *Journal of Voice*.

**Premium versus Basic Hearing Aid Technology – Does it Make a Difference? A Randomized Controlled Trial**

Houmøller, S. S., Wolff, A., Tsai, L.-T., Narayanan, S. K., Hougaard, D. D., Gaihede, M., Neher, T., Godballe, C. & Schmidt, J. H., 1. jun. 2022.

**Health-Related Quality of Life, Dysphagia, Voice Problems, Depression, and Anxiety After Total Laryngectomy**

Wulff, N. B., Dalton, S. O., Wessel, I., Arenaz Búa, B., Löfhede, H., Hammerlid, E., Kjaer, T. K., Godballe, C., Kjærgaard, T. & Homøe, P., maj 2022, I: *Laryngoscope*. 132, 5, s. 980-988

**Impact of Device Technology Level on Reported Outcomes in Adults with Presbycusis; A Randomized Controlled Trial**

Houmøller, S. S., Wolff, A., Tsai, L.-T., Narayanan, S. K., Hougaard, D. D., Gaihede, M., Neher, T., Godballe, C. & Schmidt, J. H., 10. apr. 2022.

**Multiple endocrine neoplasia type 2: A review**

Mathiesen, J. S., Effraimidis, G., Rossing, M., Rasmussen, Å. K., Hoejberg, L., Bastholt, L., Godballe, C., Oturai, P. & Feldt-Rasmussen, U., feb. 2022, I: *Seminars in Cancer Biology*. 79, s. 163-179

**Nasal vestibule squamous cell carcinoma: a population-based cohort study from DAHANCA**

## 1. Formel Pædagogisk Uddannelse

I have no formal education in teaching-pedagogy except from minor targeted courses. However, I have a substantial experience in teaching and it is my clear impression that my lecturing is considered of good quality – as indicated by the fact that I in 1998 was awarded “The Education Prize of The Faculty of Health Sciences”.

Since 2002 I have been responsible for organizing of all ORL teaching of medical students at The University of Southern Denmark. In this way, I have earned more than fifteen years of experience in teaching-related leadership and management. Ultimo 2017 the ORL Research Unit included two professors, thirteen associated professors and seven PhD-students. During 2017 they delivered 484 lessons to medical students plus 533 lessons to audio- and audio-logopaedic students plus more than 300 hours of supervision to pre-graduate medical scientific projects plus an even higher number of hours for supervision of pre-graduate audio- and audio-logopaedic students.

Teaching-related courses;

- “Team Based Learning”; The University of Southern Denmark (3 hours).
- “Supervision of the research leader”; Odense University Hospital. 2017 (40 hours). Hogan Test, “Leadership of the research mission”, “Personal leadership”, “Leading of teams”, supervision, coaching, sparring and reflective teams.
- Research Management Course – Copenhagen Business School (CBS) Modul 3: “The personal leadership” and evaluation tests (40 hours).
- Research Management Course – Copenhagen Business School (CBS) Modul 2: “The personal leadership”, “Learning about cultures” and “Vision and aims” (40 hours).
- Research Management Course – Copenhagen Business School (CBS) Modul 1: “Leading in the professional environment”, “Developments in the research environment”, “Group dynamics” and “Whole brain test” (40 hours).
- “Supervisor course”, University of Southern Denmark, 2004 (2 hours)
- “Multiple choice”, University of Southern Denmark, 2003 (3 hours)
- “Education and quality”, Danish Society of Medical Education, University of Southern Denmark, 2003 (8 hours)
- “Problem Based Learning – The Dutch Model”, University of Southern Denmark, 2003 (12 hours)
- “Objective Structured Clinical Examination (OSCE) workshop”, University of Southern Denmark, 2003
- “E-learning and Blackboard”, University of Southern Denmark, 2003 (4 hours)
- “Problem Based Learning – PBL”, University of Southern Denmark, 2003 (3 hours)

## 2. Uddannelsesadministrative opgaver

I have participated in the reorganization of the medical study twice and I have been one of the main actors in the creation of the Module K2 (Diseases in the Respiratory System) and Module K11 (Diseases in the Neural System and Sensory Organs).

In 2017 the Medical Candidate Education was reorganized and I was appointed head of the new Module K1 including Cardiac Medicine, Pulmonary Medicine, Thoracic and Vascular Surgery and ORL. The module has 51 teaching professors and associate professors. The establishing of curriculum, study guide and new teaching principles have been time-consuming, challenging and exciting. A significant reduction and reorganization of the classical overview lectures into other educational methods has been frustrating for many of the lectures and a lot of time and leadership has been necessary to carry through the process. The FAIR principles (Feedback, Activity, Individualization and Relevance) are increasingly introduced in the module. During this process, I have worked intensively with Team Based Learning (TBL), podcasts and flipped classroom. Alone in the ORL part of the module professor Anette Kjeldsen and I produced fifteen podcasts and two TBL sessions.

Teaching leadership – head of Graduate School

Since 1st of October 2018 I have been head of the Graduate School of Health Sciences at the University of Southern Denmark.

The Graduate school comprises the Head of Graduate school, the PhD committee with academic subcommittees, supervisors with employment at/affiliation to the faculty, the faculty's graduate programs as well as the Graduate school secretariat.

The Graduate School of Health Sciences is part of the Faculty of Health Sciences, which consists of eight departments, 14 centers and 50 research units.

The Graduate School of Health Sciences has approximately 530 PhD-students.

My functions as leader is to set the direction of the school in general but also for all the individual elements such as selection of courses, education of supervisors, profiling of the school, defining criteria for enrolment, evaluation process, merits etc. I use approximately twenty hours per week on this function.

## 3. Erfaring med undervisning, vejledning og eksamen

Pre-graduate medical students

I have since 01.02.98 been employed as clinical lecturer (associated professor) at The Institute of Clinical Research, Faculty of Health Sciences, University of Southern Denmark.

The modules have had different names during the time and I have chosen the terms used today to simplify my descriptions. I have taught- and do teach medical students in the following modules:

- K2 (Diseases in the Respiratory System)
- K5 (Diseases in the digestive tract)
- K6 (Endocrinology and metabolism)
- K11 (Diseases in the Neural System and Sensory Organs)
- K14 (Clinical Courses)
- New Module K1 (Cardiac Medicine, Pulmonary Medicine, Thoracic and Vascular Surgery and ORL)

My average number of pre-graduate teaching lessons – including overview lectures (in 2017 160 students per lesson), lectures for smaller groups (approximately 35 students per lesson), training of practical skills (approximately 20 students per lesson) and patient demonstration (approximately 15 students per lesson) has since 1998 been approximately 60 per

year, examinations not included.

Postgraduate teaching

- Since 1996 taught registrars under education for ORL-specialization in thyroid surgery and thyroid cancer (2 hours per year)
- Since 2002 taught registrars under education for ORL-specialization in laryngeal cancer (3 hours per year)
- Since 2008 taught registrars under education for specialization as endocrinologists in thyroid surgery and thyroid cancer (2 hours per year)
- In 2001 and 2003 taught registrars under education for specialization as pathologists in neck tumors (2 hour per year)
- In 2010 and 2012 taught registrars under education for ORL-specialization in research methods (7 hours per year)
- Since 2013 taught registrars under education for ORL-specialization in ultrasound examination of the neck and salivary glands (8 hours per year)

Speech therapist students

- Since 2008 taught speech therapist students in laryngeal cancer (4 hours per year)

Examination

- Since 1998 performed examination of medical students in ORL (10 hours per year)
- Since 2008 performed OSCE and MINI-OSCE examination in different parts of the study (40 hours per year)

Supervisor– Ph.D-studies – finished

1. From June 2015 – January 2019 principal supervisor for cand. med. XX in his PhD-education based on the project: "Medullary thyroid carcinoma in Denmark 1996–2012: A national study of epidemiology, treatment, prognosis and heredity". The defense took place the 17th of January 2017 with successful outcome.
2. From December 2013 – May 2018 been principal supervisor for cand. med. XX in his PhD-education based on the project: "Upfront PET/CT in Head and Neck Squamous Cell Carcinoma: Detection of Distant Metastases and Synchronous cancer, Prognostic Implications, and Patient Treatment". The defense took place the 27th of September 2018 with successful outcome.
3. From October 2014 – September 2017 been principal supervisor for cand. med. XX in his PhD-education based on the project: "The Impact of Surgery on Quality of Life, Esophageal Motility, and Tracheal Anatomy and Airflow in Patients with Benign Nodular Goiter". The defense took place the 25th of January 2018 with successful outcome.
4. From October 2009 – October 2014 been principal supervisor to cand. med. XX in his PhD-education based on the project: "Papillary thyroid carcinoma: Clinical significance and metastatic potential". The defense took place on the 8th of January 2015 with successful outcome.
5. From January 2011 – July 2014 been principal supervisor to cand. med. XX in his PhD-education based on the project: "Grommet treatment in preschool children with middle ear problems – Familiar quality of life". The defense took place on the 12th of September 2014 with successful outcome.
6. From October 2007 – June 2012 been principal supervisor to cand. med. XX in her PhD-education based on the project: "Salivary gland cancer in Denmark; a clinical and histological study". The defense took place on the 7th September 2012 with successful outcome.
7. From September 2012 – February 2016 co-supervisor for cand. med. XX concerning the PhD-project: "Treatment of glottic cancer in the past, the present and the future". The defense took place the 10th of May 2018 with successful outcome.

Supervisor– Ph.D-studies – ongoing

I am supervisor in 6 ongoing Phd projects. Three as principal supervisor and four as co-supervisor. In seven projects the principal supervisor has a position in the Research Unit of ORL Head & Neck Surgery and Audiology, University of Southern Denmark (our research unit).

1. Since 1. October 2019 principal supervisor for XX doing his PhD on the project: "Should 18F-FDG-PET/MRI be included in the diagnostic workup of patients with head and neck squamous cell carcinoma?" The project is fully financed.
2. Since 1. April 2017 co-supervisor for the project: "Salivary gland carcinoma in Denmark 1990-2015: A national study with focus on diagnostic imaging, surgical treatment of the neck and prognosis". The PhD student is cand. med. XX. The project is fully financed. The data collection is ongoing and the first manuscript in the field of salivary gland carcinomas has been published. The principal supervisor has a position in the Research Unit of ORL Head & Neck Surgery and Audiology, University of Southern Denmark.
3. Since 1. December 2016 co-supervisor for the project: "Predictive factors for successful use of hearing aids". Most of data have been collected and the analyses have started. The project is part of a large multicenter study "Better hearing rehabilitation" with an overall budget of more than 50 millDKR. It is performed by cand. aud. XX. The principal supervisor has a position in the Research Unit of ORL Head & Neck Surgery and Audiology, University of Southern Denmark.
4. Since 1. February 2016 co-supervisor for the project: "Coherent Raman scattering microscopy for in vivo diagnostics of head and neck cancers – CARS". Data collection is going on. The principal supervisor has a position in The Memphis Center at the University of Southern Denmark.
5. Since 1st of April 2016 co-supervisor for the project "Standardization of the Phonetogram for Clinical and Research Purposes - Validating the phonetogram examination and monitoring of effects and side effects caused to the voice by non-malignant vocal cord lesions and transoral laser assisted surgery (TLM)". The PhD student is Master in Audiopedics Trine Printz. Data analyses are ongoing. Three publications in the field of objective voice analysis have already been published. The principal supervisor has a position in the Research Unit of ORL Head & Neck Surgery and Audiology, University of Southern Denmark.
6. Since 1. January 2016 principal supervisor for the project: "Laryngeal intraepithelial neoplasia in Denmark: Incidence, pre-surgical diagnostics and prediction of malignancy". The PhD student is cand. med. The project is fully financed. Data collection is ongoing and writing of publications has started.

Supervisor– Undergraduate research year – finished

I supervise XX in his undergraduate research year concerning the project: “Papillary thyroid carcinomas in Denmark 1996-2015: subgroups with clinical interest”. The project is ready for assessment in February 2018.

In the period 20.07.16 – 21.07.17 supervised XX concerning the undergraduate research project entitled: “The Danish head and neck cancer fast track program. Results from The Region of Southern Denmark”. The project is finished with a mark 10.

In the period 01.01.05 – 31.12.05 supervised XX concerning the undergraduate research project titled: “Papillary microcarcinomas in the thyroid gland: Can Cyclin D1 and Galectin-3 predict the prevalence of metastases?” The examination was passed the 07.02.06 in Odense.

In the period 01.02.03 – 01.04.04 supervised XX concerning the undergraduate research project titled: “Development of Real-Time Quantitative PCR Assay for Detection of Oncogene Human Papillomavirus 16 and 18 – applied to Carcinoma of the Tonsil”. The examination was passed the 28.07.04 in Odense.

In the period 01.01.99- 31.03.00 supervised XX, Southern University of Denmark concerning the undergraduate research project titled: “Can blood flow measured by triplex-scanning predict malignancy in cervical enlarged lymph nodes?” The examination was passed the 05.05.00 in Odense.

In the period 01.10.96-31.03.97 supervised XX, Katholieke Universiteit Nijmegen, Holland concerning the undergraduate research titled: “Squamous cell carcinoma of the nasal vestibule”. The examination was performed by XX April 1997, Nijmegen in The Netherlands and was passed.

Supervisor– medical candidate research projects - finished

Supervised XX concerning his master degree: “Esophageal compression and goiter symptoms in patients with benign nodular goiter”. The project has been send for assessment January 2018.

Supervised XX concerning her master degree: “Changes in disease specific quality of life after thyroidectomy in patients with subclinical hyperthyroidism”. The project has been send for assessment January 2018.

Supervised XX concerning her master degree: “PET/CT and prediction of thyroid cancer in patients with follicular neoplasia”. The project was accepted June 2017 with a mark 12.

- Written multiple sections constituting more than 5% of the official Danish textbook in ORL
- Written a chapter concerning acute ORL in the textbook "Acute medical conditions" Developed TBL-sessions
- Done multiple podcasts
- Done the whole framework for the practical skill course in ORL examination technique. In the last years, this work has been shared with my ORL professor colleague Anette Kjeldsen
- Made multiple OSCE examination questions, essay questions and multiple choice question

My teaching philosophy is that teaching needs to be presented in an enthusiastic and exciting way with maximal involvement of the students. I have tried- and feel comfortable with most teaching methods including overview lectures, PBL, TBL and bed-side teaching.

I have established significant routine in TBL and podcasts and I have as head of the new Module K1 been responsible for the implementation of the FAIR principles in the module. This work has been performed in close collaboration with the pedagogic specialists from the University of Southern Denmark.

My plans for teaching if appointed to the position

According to my actual job description as a 5-year clinical professor I have had no teaching obligations. However, since the start of the position in July 2013 I have had more than 50 teaching hours per year in Medicine and Audio-Logopaedics delivered *con amore*.

I will continue my work as head of the new Module K1 with focus on the ongoing change in teaching strategy from classical overview lectures towards the FAIR principles.

To keep in touch with the teaching pedagogic development and the effects of our interventions I plan to continue my load of teaching at the actual level. Also, I find teaching very stimulating and I like the dialog very much with the students, which is of utmost importance for the recruitment of new researchers and medical doctors for our specialty.
