Teaching Experience

2. Teaching Experience

2.1. Experience from my work as a teaching associate professor at The Scandinavian School of Cardiovascular Technology at Aarhus University from January 2010 – March 2013.

This is an international Masters program of 60 ECTS-points aiming at upgrading bachelors of nursing or engineering (and a few medical doctors) to become perfusionists. Teaching is in English in an international environment, and, although mainly focusing on Scandinavia, we also had students from i.a. Malaysia, Trinidad-Tobago, Iraq, and Ghana.

We were three associate professors each responsible for a third of the teaching program. As responsible for the teaching in anatomy and physiology, I usually had between six and eight lectures per semester myself and was responsible for hiring the other teachers, for the drafting of lecture plans, and for planning the exams.

On the last semester, the students have to make a Masters thesis at the department, they come from, with local supervision. For the defence of these theses, I have been a censor both in Gothenburg and in Umeå.

2.2. Other teaching experience.

2.2.1. Pregraduate teaching of medical students:

Surgical revascularization. Two lessons, 9th semester medical students, Aarhus University, April 2005

Chest tubes. One lesson 9th semester medical students Aarhus University, October 2005

Informal training of medical students throughout my clinical work.

2.2.2. Pregraduate teaching medical perfusionists (not covered in Section 2.1):

•Cardiac anatomy. Two lessons International School of Perfusion, Faculty of Biomedical engineering, Aarhus University, September 2009

•Vascular anatomy. Two lessons International School of Perfusion, Faculty of Biomedical engineering, Aarhus University, September 2009

•Vascular physiology. Two lessons International School of Perfusion, Faculty of Biomedical engineering, Aarhus University, September 2009

•Cardiac anatomy - demonstration. Two lessons International School of Perfusion, Faculty of Biomedical engineering, Aarhus University, September 2009

2.2.3. Pregraduate teaching engineering students:

•Scientific evidence. Four lessons teaching at the Engineering College in Århus February 2010.

•Scientific evidence. Research planning and Scientific Language. Eight lessons at the Engineering College in Århus. February 2011

•Scientific evidence. Four hours teaching at the Engineering College in Århus. February 2012.

2.2.4. Postgraduate ph.d.-courses for medical doctors and engineers:

- Magnetic Resonance Phase Contrast Flow Measurements. Two lessons. Ph.d.-course in Nuclear magnetic Resonance, Aarhus University, august 1995
- Mathematically based image processing methods, Scuola Normale Superiore, Pisa, Italy 12. December 1996 (1 lesson)
- Magnetic Resonance Phase Contrast Flow Measurements. Two lessons. Ph.d.-course in Nuclear magnetic Resonance, Aarhus University, February, 1997
- "Pathophysiology of ischemia, wounds, and repair", "Evaluation of PAD and wounds", "Measurement of tissue metabolism by O₂C", and "Exercises with O₂C" - four lessons at PhD course 'The Dermal Vasculature in Health and Disease' 17-18 November, 2011, Institute of Health and Science Technology, Aalborg University

2.2.5. Other postgraduate teaching of medical doctors:

- Co-organizer and 2 teaching lessons at "OPCAB- kursus", Danish Society of Cardiothoracic Surgery and Institute for Eksperimental Clinical Research, 23.-24. maj 2002.
- Vascular surgery, Practical surgical course for specialist training (A-Course). Odense, 7. december 2011, 7 hours theoretical and practical teaching.
- Vascular surgery, Practical surgical course for specialist training (A-Course). Odense, 1st of March 2012, 7 hours theoretical and practical teaching.
- Vascular surgery, Practical surgical course for specialist training (A-Course). Aarhus, 30th of October 2013, 7 hours theoretical and practical teaching.
- Vascular surgery, Practical surgical course for specialist training (A-Course). Aarhus, 19th of March 2014, 7 hours theoretical and practical teaching.
- Vascular surgery, Practical surgical course for specialist training (A-Course). Odense, 4th of September 2014, 7 hours theoretical and practical teaching.
- Vascular surgery, Practical surgical course for specialist training (A-Course). Aarhus, 16th of September 2014, 7 hours theoretical and practical teaching.
- Microsurgery. Practical surgical course for specialist training (A-Course), Odense, november 2012. Eight hours theoretical and practical course.
- Hands-on training and theoretical lectures on distal bypass surgery for international visiting doctors at twelve 2-days workshops on in situ surgery held in Kolding Hospital in Collaboration with LeMaitreTM Company since 2012
- "Critical limb ischemia" (A-Course). Kolding, September 2015, 4 hours theoretical teaching and organizer of the 2 day course for vascular surgeons in training
- "Research and clinical evidence" (A-Course). Aarhus, January 2016, 6 hours theoretical teaching and co-organizer of the 4 day course for vascular surgeons in training

2.2.6 Postgraduate teaching of nurses:

- Surgical revascularization. 1 lesson at cardiologycourse for nurses, Skejby Sygehus 25. January 2005
- Surgical revascularization. 1 lesson at cardiologycourse for nurses, Skejby Sygehus 18. January 2006

2.2.7. Staff-meetings and journal clubs:

- A number of presentations at staff-meetings and journal clubs at Skejby Sygehus 2002-2008, Austin Hospital, Melbourne 2006-7, Regionshospitalet Viborg 2009 and Kolding Sygehus, Lillebælt Hospital 2011-

3. Supervision

3.1. Medical students:

- Supervisor for theses on Research Methodology by 2 medical students autumn 2002.
- Main supervisor for a candidate dissertation for a medical student as a collaboration between FAM and dept. of Vascular Surgery, Kolding Hospital, University of Southern Denmark, Spring semester 2013 (Awarded grade 12 (A))
- Supervisor for a candidate dissertation for a medical student regarding catheter-directed treatment of deep venous thrombosis at dept. of Vascular Surgery, Kolding Hospital, Aarhus University, Autumn semester 2014

3.2. Junior medical doctors:

- Formal clinical supervisor for a total of 7 younger doctors at dept. of Cardiothoracic and Vascular Surgery, Skejby Sygehus and Dept. of Vascular Surgery, Viborg Sygehus during the period 2002-2008

3.3. Ph.d.-students:

3.3.1. Main supervisor for ph.d.-student Trine Meinert Jørgensen, M.D. "Familiar abdominal aortic aneurisms ", Defended May 2016

3.3.2. Main supervisor for ph.d.-student Mette Berggreen Olesen, " Is the Micro-lightguide spektrophotometer "Oxygen to See (O2C)" useful in Vascular Surgery? In collaboration with Hanne Birke, Clinical Institute, Aarhus University. Ongoing.

3.3.3. Co-supervisor for ph.d.-student Louise Skovgaard Londero M.D. "Can amputation prevention be improved in the Region of Southern Denmark? In collaboration with Professor Jes Lindholt, University of Southern Denmark. A large scale register based study focusing on amputation prevention and risk factor management in Denmark. Ongoing.

3.3.4. Co-supervisor for ph.d.-student Helle Glud Binderup. Evaluation of response to antiplatelet therapy using a score based on microRNA and platelet distribution width. Ongoing.

4. Formal pedagogical training

1. Participated in the course: Training of "new" and retraining of "old" surgeons in off-pump. 23. oktober 2010, Chennai Convention Centre, China (in connection with 20th world congress of cardiothoracic surgeons, Chennai, Indien), Course organizer, Professor P. Sergeant, Leuven , Belgium.

2. Participated in the course: "Kursus i forskervejledning," Faculty of Health Science, Aarhus University 29.-30. March 2011
