1992 Cand. Med. Faculty of Health Science, Copenhagen University

1994 Authorization as a Physician. The Danish Health Authority, Copenhagen

1997 Permission to Practice independently as a Physician. The Danish Health Authority, Copenhagen

2007 Specialist in Gynecology and Obstetrics. The Danish Health Authority, Copenhagen

2011 Certified sub-specialist in Gynecological Oncology. EXPU program from the Danish Board of Obstetrics and Gynecology consisting of a 3 years sub-specializing program with academic, surgical, oncological and scientific training

Doctoral degree

2004 PhD degree based on the thesis entitled: Health-related quality of life after cervical cancer. University of Copenhagen.

Main supervisor: Professor Mogens Groenvold. Dept. of Palliative Medicine Bispebjerg Hospital and the department of Public Health, Copenhagen University mold@sund.ku.dk

Co-supervisor: Statistician David Machin (retired) Division of Clinical Trials and Epidemiological Sciences, National Cancer Center, Singapore

Supported by grants from the Danish Cancer Society

Post doc appointments

1.4.12-31.5.15 Post-doc position (20%) at The University of Southern Denmark

Main supervisor: Professor Ole Mogensen; Department of Obstetrics and Gynaecology, Karolinska University Hospital, Sweden and Clinical Institute, University of Southern Denmark omogensen@sdu.health.dk

Current position

1.1.2011-now Senior consultant, subspecialized in gynecological cancer surgery at the department of Obstetrics and Gynecology Odense University Hospital.

From 2012 -2015

Combined position with 80% clinical work and 20% post doc position/ associate professor position.

Since 1.9.2015 team leader and subspecialized responsible for the gynecological cancer surgery at OUH

1.6.2015-Associate Professor (appointed to research) (20%) University of Southern Denmark

1.9.2015-Assigned as the leader of the ROSOR (Research on Surgical Robotics) Frontline center at OUH

1.12.2016 - assessed qualified as Professor

1.3.2017 - Associate Professor (appointed to research) (40%) University of Southern Denmark

Prior positions

1992-93 Internship Dept. of medicine and Dept. of general surgery Holbaek hospital + general practitioner Asnæs medical practice

1999 Maternity leave

2000-03 PhD student at the University of Copenhagen and Research assistant at the Dept. of Obstetrics and Gynecology

Copenhagen University Hospital and the Research Unit at the Dept. of Palliative Medicine, Bispebjerg Hospital.

2004-07 Specialist training in Obstetrics and Gynecology: Dept. of Urology (6 months) and department of Obstetrics and Gynecology, Roskilde Hospital (12 months) and Dept. of Obstetrics and Gynecology Herlev University Hospital (12+6 months)

07/2007 Senior Registrar, Dept. of Gynecology, the Gynecological Cancer section, Herlev University Hospital

11/2008 Clinical Fellow (Gynecological Oncology) Dept. of Obstetrics and Gynecology Herlev University Hospital

2010 Honorary assistant, University College London Hospital, Dept. of Gynecological Cancer Surgery

05/2010-5/2011

Consultant Gynecological Oncology, Dept. of Obstetrics and Gynecology Herlev University Hospital

01-05/2011

Clinical Fellow (Gynecological Oncology) at the Dept. of Obstetrics and Gynecology, Odense University Hospital

06-11/2011

Consultant and Clinical Fellow at the Dept. of Obstetrics and Gynecology, Odense University Hospital

11/2011-01/2016

Consultant within Gynecological Cancer Surgery Dept. of Obstetrics and Gynecology, Odense University Hospital. Leader and responsible for the implementation of a robotic surgical program at the dept. of Obstetrics and Gynecology Odense University Hospital

Current research activity

I have three main research areas which are integrated within my current scientific activity:

1. Gynecological cancer
2. Robotic assisted laparoscopic surgery / minimally invasive surgery
3. Patient reported outcome measures

All three research areas are integrated in a highly profiled scientific collaboration between the Dept. of Obstetrics and Gynecology OUH and the Maersk McKinney Moeller Institute at SDU. The ROSOR (Research on Surgical Robotics) project was developed in 2012 and assigned as a Frontline Center at OUH in 2014. A total of 6 PhD students are affiliated and a steering group that besides me consists of Professor Ole Mogensen and Ass. Professor Thiusius Rajeeth Savarimuthu. The individual studies and the background for ROSOR are described shortly in the section on supervision.

In close collaboration with Ass Professor Dorte Gilså Hansen, the National Research Center for Cancer rehabilitation and Research Unit of Southern Denmark and Professor Ole Mogensen, a randomized controlled trial on follow up after gynecological cancer was initiated in 2014 and a PhD study affiliated. As a further development in the Dept. of Gynecology OUH, a post doc position has been appointed and funded from The Region of Southern Denmark to initiate additional studies elaborating on developing, implementing and evaluating patient-centered individualized follow up programs. Funding has been obtained from the Danish Cancer Society and OUH competition Fundings

I have been an active member of the European Organization of Research and Treatment of Cancer (EORTC) Quality of life Group since 2002. Within this group I have been the Danish collaborator in projects related to the development and validation of quality of life questionnaires related to gynecological cancer. Since 2011 I have been appointed as the principal investigator in a multicenter international study developing and validating a quality of life questionnaire for vulva cancer patients. The study has reached phase 4 in the validation process.

In collaboration with the Center for Shared Decision Making Vejle, two PhD studies have been employed evaluating different aspects of post-treatment follow up after ovarian and breast cancer. A further post-graduate study on shared decision making related to BRCA testing has been initiated and is on-going.

In collaboration with Professor Niels Qvist SDU a study is being developed on complications related to extensive cytoreductive surgery in ovarian cancer.

I have been sub-investigator in the DESKTOP 3; a multicenter randomized controlled trial that compares the effect of cytoreductive surgery + chemotherapy versus chemotherapy alone for platinum sensitive recurrent ovarian cancer. I included 14 patients in the study and was among the top 10 inclusion centers in Europe.

Scientific presentations

More than 75 scientific oral, international, and national presentations. Below please find details on oral presentations given during the past 5 years. Further presentations are given at the section of Congresses and workshops.

1st author for 9 posters of which 6 have been chosen for oral presentation. Co-author on another 9 posters as supervisor for younger colleagues

A further 4 abstracts have been accepted for oral presentations (2) and post presentation (2) at ESGO November 2017.

ONLY PAST FIVE YEARS GIVEN HERE

2010 Sexual difficulties after gynecologic and breast cancer – how to address them. Invited speaker on the 21st European Congress of Obstetrics and Gynecology, Antwerpen, Belgium

2010 Treatment morbidity – state of the art cervical cancer symposium. Invited speaker on the Nordic Society Gynecological Oncology annual meeting, Copenhagen, DK.

2010 The diagnosis of cervical and endometrial cancer. Invited speaker, The Danish Urological Society annual meeting, DK

2011 Sexuality and patients with advanced cancer. Invited speaker, symposium at the Danish Society of Palliative Medicine, DK

2011 Pelvic radiotherapy and sexual function. Invited speaker on the Conference: Cancer Survivorship and Sexual Health, Washington DC, USA

2011 Gynecological Cancer and Sexuality. Invited speaker and co-chair of 2 sessions at the 9th congress of the European Society of Gynecology, Copenhagen, DK

2011 Development of a questionnaire module for use in clinical studies of Vulva cancer patients. Invited speaker on the EORTC (European Organization of Research and Treatment of cancer) / EGAM (European Group meeting), Bruxelles, Belgium

2012 Infections and Thromboembolic Complications after Gynecological Cancer Surgery. Invited speaker on the 1st Nordic Congress of Obesity in Gynecology and Obstetrics, Billund, DK

2012 Complications related to treatment of gynecological cancer. Invited speaker at the annual meeting of the Danish patient association for women with female cancer

2012 The ROSOR (Research on Robots) project. Invited speaker at ROBIN, Advances in Robotic Surgery symposium, Kiel, Germany

2012 Development of the European Organization of Research and Treatment of Cancer (EORTC) Quality of Life Questionnaire for Vulva Cancer. Oral presentation, IGCS (International Gynecological Cancer Society) 14th biennial meeting, Vancouver, Canada

2013 HPV-vaccination. Invited speaker on symposium for general practitioners, Region of Southern Denmark

2013 Gynecological Oncology in the Region of Southern Denmark Presentation at a joint meeting between Region of Southern Denmark and Region of Sjælland, DK

2014 Robotic surgery – the future gentle surgical modality for cancer surgery. Invited speaker on ESOF (Euroscience Open Forum), Copenhagen, DK

2014 Sexual dysfunction after surgery and radiotherapy for gynecological cancer. Invited speaker, Urological forum Middelfart, DK

2015 Gynecological Cancer – disease, prevention, symptoms, and treatment. Invited speaker The Danish patient association for women with female cancer at the Faroe Islands

2015 MTV on robotic assisted surgery – perspectives and future research. Invited speaker on a workshop on the MTV report on robotic assisted surgery, Aarhus, DK

2015 FDG-PET/CT and Gynecological cancer. Invited speaker at DSKFNM's (the Danish Society for clinical physiology and nuclear medicine) annual meeting, Copenhagen DK

2015 The paradigm shift within operative gynecological cancer surgery – advances of robotic assistance. Invited speaker, workshop on Maersk McKinney Moeller Institute, Odense, DK

2015 Status on gynecological robotic assisted surgery and research Oral presentation at a workshop arranged during a visit by the Xi robot at OUH (chair of the workshop and speaker)

2015 Robotic surgery – why or why not? Presentation at a management group meeting at OUH

2015 The MDT conference at OUH Presentation at the Danish Gynecological Cancer group annual meeting, Vejle DK

2016 Follow up after gynecological cancer Invited speaker at DFKOs (Danish Society of gynecological specialists) annual meeting, Copenhagen DK

2016 Is the current follow-up routine essential? Oral presentation at the 40th NFOG congress Helsinki, Finland

2017 The EORTC Vulva Module; a phase 4 field study. Invited speaker, EORTC-EGAM GCG group meeting, Brussels, Belgium

2017 Follow up after cervical cancer. Invited speaker at SFOG, Stockholm, Sweden

2017 Follow up after gynecological cancer. Invited speaker at DSOG guideline meeting, Hindsgavl, Denmark.

2017 Five years of Robotic Surgery at OUH - what have we learned so far? ROBOTS and DRONES for Health, University of Southern Denmark and OUH

Teaching

2002-2003 Lecturer in questionnaire methodology at the institute of Public Health Copenhagen University

1998-2010 Regular teaching at the post-graduate oncological course for nurses (Copenhagen University Hospital and Herlev University Hospital in two sessions: gynecological cancer diagnosis and treatment and sexual late effects after cancer treatment and communication with the cancer patients

2000-2010 Regular teaching at pre- and postgraduate courses on basic and clinical sexology at the medical school Copenhagen University, for the association of younger gynecologists and Obstetricians and for gynecological specialists, and physiotherapists in subjects related to sexual problems related to cancer treatment

2008-2010 3 times yearly pre-graduate teaching in two sessions of medical students at Herlev University Hospital in cervical intraepithelial neoplasia and pelvic mass

2011 Post-graduate teaching of oncologists and oncological nurses in surgical treatment of gynecological cancer at Odense University Hospital

2011-14 Yearly post-graduate teaching at the A-course in venerology on cervical intraepithelial neoplasia and HPV vaccination

2012- Yearly post-graduate teaching at the H-course for oncologists about supportive and palliative cancer treatment in two sessions: Gonadal toxicity and sexual late effects after cancer treatment

2012+2013 Post-graduate teaching of the staff at the dept. of gynecology and the dept. of anesthesiology at Odense University Hospital about Implementation of robotic surgery

2012 x 2 Post-graduate teaching of gynecologists at Holbæk and Roskilde Hospital on implementation of robotic surgery

2012-2015 Yearly post-graduate teaching at the course on laparoscopic live surgical training in porcine for gynecological fellows at Odense University Hospital

2013-15 Regular post-graduate teaching at the RFNA education (Registered Nurse First Assistant in robotic surgery) in laparoscopy (box-training and live porcine laparoscopic training)

2012- Twice yearly pre-graduate teaching of medical students at K9 at the University of Southern Denmark in two sessions: gynecological cancer + problem based learning about gynecological cancer

2013 Post-graduate teaching at a course on cervical cancer in the association of younger Gynecologists and Obstetricians

2014+2016 Post-graduate teaching of sub-specialized nurses in surgical treatment of ovarian cancer

2015 Post-graduate teaching of GPs at "lægedage" in Cervical and Ovarian cancer treatment

2015- Yearly post-graduate teaching in cervical cancer at the H-course for gynecological fellows

2015 - Yearly post-graduate surgical training in open advanced surgery on porcines

Courses

1993-2009 In total 51 courses within Gynecology and Obstetrics, surgical and scientific disciplines: abdominal and laparoscopic surgery, gynecological ultrasound technique, infertility, fetal medicine, ALSO and regular STAN certification, active management of labor, hands-on obstetrical crisis management, academic oral presentations and writing, psychosocial research methodology, questionnaire- and interview methodology, statistics, competency development of main supervisors, communication with the cancer patients, post-graduate teaching and management.

PAST FIVE YEARS

2010-2015

Da Vinci robot certification as console surgeon in robotic surgery (IRCAD Strassbourg 2010)

ESGO Operating theatre course in Gynaecologic Cancer Surgery (Budapest 2010)

HPV symposium (2011)

Extensive debulking surgery of ovarian cancer. Hands-on course in open surgery on cadavers (Copenhagen University 2011)

Malmö Practicum Robotic school, Masterclass in advanced robotic surgery (Malmö 2011) Laparoscopic hands-on live

porchine training in 3D laparoscopic suturing (Hamborg 2011) Extensive debulking surgery of ovarian cancer. Hands-on course in open surgery on cadavers (Orlando USA 2013)
Cadaver surgical course on robotic assisted para-aortic lymphadenectomy (Paris 2013)
STAN-re-certification (2014)
Da Vinci robot team re-certification for the SI robot (IRCAD Strassbourg 2012)
Da Vinci certification in single-site robotic surgery (Gent 2014)

Laparoscopic box training laparoscopic suturing technique (Las Vegas 2015)
Course on management of medical professionals (The Danish Medical Association) (2015)

Organization and management

1997-99 Board member, the Organization of Mother's aid of 1993
2006 LAS 1 og LAS2 courses (Management, Administration and cooperation)
2010-2013 Chairman of the Board at the Freinetskolen Copenhagen
2011- Board member in the Fund: Tømrermester Axel Kastrup-Nielsen og Eva Kastrup-Nielsen's memorial fund
2009 Chairman for the Hindsgavl guideline group regarding guideline on sexual problems in gynecology
2010 Clinical responsible for the out-patient clinic at Herlev University Hospital
2010 Responsible for updating the web-page and patient's pamphlets on gynecological cancer disease and treatment at Herlev University Hospital
2010 Organization of a patient rehabilitation program after treatment of gynecological cancer (Herlev University Hospital)
2011-2014 Clinical responsible for the organization of the gynecological cancer operations at OUH
2011- Deputy Chairman in the Cervical group of the Danish Gynecological Cancer Group (DGCG)
2011-2016 Leader of the implementation program for Robotic Surgery at OUH
2011-2016 Member of the steering committee for Robotic Surgery performance at OUH 2012 - Board member of the DGCG
2013 - Member of the Executive Committee of the DGCG
2014-15 Member of the steering committee of the Danish Gynecological Cancer Database
2015 Team leader and subspecialized responsible for the Gynecological Cancer Surgery at OUH
2015 Member of the steering group for cancer packages at OUH
2015 Member of a working group under the National Board of Health with the purpose to provide new standards for follow-up after gynecological cancer treatment
2015 Member of the Health Technology Assessment committee for robotic surgery under CFK · Center for Public Health and Quality improvement – Aarhus.
2015 The Danish Medical Association - Course on management of medical professionals
2015-16 Individual coaching regarding management development
2016 Member of the management steering group of robotic surgery at OUH
2016 Assigned as responsible for the ROSOR (Research on Surgical Robotics) program at OUH
2017 Member of the working group on Experimental Cancer Surgery, The National Board of Health

Surgical skills

I perform all areas of advanced gynecological cancer surgery unassisted and possess the ability to teach all surgical steps of the following surgical procedures:

Extensive debulking ovarian cancer surgery including mobilization of the liver, extensive peritoneal stripping in the upper and lower abdomen, splenectomy, mobilization of the bowels, radical pelvic and Para aortal lymph node dissection, en-bloc resection of the female genitals, rectum and pelvic peritoneal surfaces.

Radical pelvic and Para aortal lymph node dissection by open, conventional, and robotic assisted laparoscopy

Total laparoscopic hysterectomy (TLH) and pelvic lymphadenectomy and omentectomy by open, conventional, and robotic assisted laparoscopy

TLH by Single site robotic assisted laparoscopy

Radical hysterectomy by open access and robotic assisted laparoscopy

Acted as a proctor during the implementation of robotic surgery at Kristiansand University Hospital, Sweden

I manage all kinds of gynecologic and obstetrical emergency surgical procedures including post-partum hysterectomy.
