2010-	Consultant and research leader at the Department of Emergency Medicine, Odense University Hospital
2008	Specialist in Internal Medicine: Infectious medicine
2007	Specialist in Infectious medicine
2007	Doctoral thesis "Acid related disorders and use of antisecretory medication". The Faculty of Health, University of Southern Denmark
2006	Diploma in Tropical Medicine. The London School of Hygiene and Tropical Medicine, University of London
2001	PhD thesis "Helicobacter pylori eradication in management of dyspepsia". The Faculty of Health, University of Southern Denmark
1989	University of Aarhus. Cand.med.

Research Areas

Evaluation of diagnostic procedures and clinical guidelines, mixed methods studies. Clinical epidemiology, combination of clinical information with information from population based registers. Identification and treatment of patients at risk. Severe infections. Shock. Bacteremia. Public health. Cohort studies, case control studies, randomized studies.

Academic results

I have been one of the driving forces in developing an emergency medicine research unit, network and collaboration with center in Region of Southern Denmark. In the collaboration there has been focus in strengthening of senior researchers and their development to now three new appointed professors in prehospital and emergency medicine as well as education of young researchers (primarily as phd students). The network is actively collaborating with Emergency Medicine researchers in the rest of Denmark, Scandinavia, Europe, Boston, and Hong Kong.

PhD degree defended and approved, main supervisor

2018	Patient at risk
2017	Physician administered pre-hospital emergency care
2016	Hypotension and Shock in the Emergency Ward. A 17 year population based follow-up study
2015	Vertebral osteomyelitis. Two population-based cohort studies
2014	SIRS and sepsis among acute medical patients

PhD degree defended and approved, co-supervisor

2018	The elder acute medical patient. Clinical characteristics and feasibility of a Hospital at home supported technology
2017	Anaphylaxis Prevalence in Odense: Treatment and Elicitors in Children and Adults (APOTECA)
2017	Metformin-induced lactate acidosis in Denmark – Prevalence/incidence and prediction through genotyping
2017	Patients with non-cardiac chest pain – risk stratification and prognosis
2015	Hospital (nosokomial) acquired bacteremia, – epidemiology and prognosis
2008	Stopping acid inhibitory drugs among long term users in primary care

Ongoing PhD studies, main supervisor

Shock and organ failure among adult patients in the Emergency Department – treatment, target points, incidence, etiology and prognosis. A hospital based cohort study at Odense University Hospital 2012-2015.

The prognostic and clinical value of monitoring the acutely dyspneic patient with serial ultrasound of the lungs and inferior vena cava

Ongoing PhD studies, co-supervisor

Ultrasound-scanning of hypotensive patients in acute resuscitation

The very old patient's perspective: Important factors at end-of-life, treatment preferences and stability of those

Prehospital measurements of blood lactate for identification and early treatment of critically ill patients

Decision making in Cardiac Arrest: The Ethics of Resuscitation

Project leadership

Established the research collaboration between emergency medicine and the prehospital setting in Odense Municipality

Established the research collaboration and database covering all contacts to Emergency Departments in the Region of Southern Denmark. Started 2010

Established the DORIS research collaboration and database covering all patients with blood cultures at Funen 2008-2011.

Established the EXPECT research collaboration and database covering all patients with performed electrocardiograms in the Emergency Departments at Odense University Hospital, Sydvestjysk Sygehus, Esbjerg, Department of Emergency Medicine, Helsingborg Sweden and Department of Emergency Medicine Lund, Sweden.

Leader in the national quality database covering all acute in-hospital contacts in Denmark. Started 2014.

International Collaboration

Professor in Emergency Medicine Ulf Ekelund, Skåne University Hospital, Lund.

Professor in emergency medicine Lisa Kurland Örebro University Sweden.

Associated professor Nathan Shapiro, Consultant at Department of Emergency Medicine Beth Israel Deaconess Medical Center, Boston, Harvard University.

Associate professor Mike Donino Department of Emergency Medicine Beth Israel Deaconess Medical Center, Boston, Harvard University.
