Pedagogical idea

I teach to have fun, invite curiosity, and share useful academic knowledge. As active students have more fun, and probably also learn more, I go for engaging, passionate teaching approach

Teaching Experience

I have experience in (co)teaching courses, developing programs in the domains of strategy and organization, such as:

- Master program in Strategy and Organization (cand.merc.)
- Foundations of strategy (cand.merc.)
- Research seminar, Advanced Management and Strategy Theory
- Strategi og forretningsforståelse (MBA)
- Doctoral courses at SDU, INSEAD, Wharton
- Supervision: I have supervised Master-students, PhD-students, and young scholars.

Pedagogical Competencies

I have completed the mandatory pedagogical program at SDU, and since then benefitted from engagement with students, instructors, and teachers across countries, and wide selection of topics.
