Pedagogical Idea

Teaching should be interesting, engaging, and practically oriented, involving contemporary techniques and online tools. Students' focus must be on how to search for the right answers and relevant information, and how to apply acquired knowledge in real-life situations. It is very important students to realize that they are not just a passive recipient of knowledge, but they should actively seek for the answers, and develop their personality and expertise in the desired domain of knowledge.

Teaching Experience

Teaching assistant
2018 – 2019 Accounting (B.Sc.)
2018 – 2019 Finance (B.Sc.)
2018 – 2019 Macroeconomics (B.Sc.)
2018 – 2019 Operation and Supply Chain Management (B.Sc.)
2017 – 2018 Macroeconomics (B.Sc.)
2017 – 2018 Operation and Supply Chain Management (B.Sc.)

Pedagogical Competnces

2020 Supervision – roles and relations, SDU
2018 Kursus I Undervisningspædagogik for instruktører, SDU
2017 Kursus I Undervisningspædagogik for instruktører, SDU
