Erfaring med undervisning, eksamination og vejledning

- Since 2002 when I started at SDU I coordinated also modules on Determinants of Health and Health impact assessment in BSC. Program in Public health research and did participate as lecturer or PBL mentor in Epidemiology, Population health and Demography, Environmental Health, Behavioral Health, Empowerment and social policy, Public Health in 21.st. Century, Risk assessment modules and I also teach in Bridging course for new-coming master students.
- Over the years I supervised about 15 bachelor and 80 master thesis
- I am also working as PhD supervisor and over last years I supervised 3 completed PhD studies at SDU. Within BSU system of Danish Ministry of Foreign Affairs I co-supervised two completed PhD at University of Ghana, Accra, Ghana and at KNUST Kumasi, Ghana
- I am active censor within public health censors in Denmark.

Metoder, materiale og redskaber i undervisning

- As of teaching methods I use standard lectures, PBL and other type of group work, online lecturing using Adobe Pro Connect and other online tools
- As exam method I use standard written exams (article writing), project work, grant proposal writing and short presentations (World Health Assembly game)

Udvikling i undervisning

- I continuously participate in further development of the MSC program in public health research
- I frequently apply for travel grants and visit our Erasmus+ partners with aim to increase international collaboration and exchange
