## **Pedagogic idea**

My main role as a university teacher is to foster the individual learning process of the student. I encourage students to assume responsibility for their education and to reflect on concepts in new contexts. I aspire to trigger their intrinsic curiosity to and help them to master yet unknown problems. I organize my classes in such a way that the students' understanding of issues and ways of reflecting become visible, so that we may explore different approaches to phenomena together.

## **Pedagogical competences**

2017 Teaching (with English Medium Instruction) at SDU  
2015 Publication on teaching methods in education journals  
2012 Venia legendi / Adjunkt pædagogikum (lecturer training program) completed at AU  
2010 Teaching (with English Medium Instruction) at Aarhus University (AU)
