## **Pedagogical idea**

As a researcher and educator in the field of accounting, I am in pursuit of three major teaching goals: (1) to develop students' critical thinking skills based on theoretical discussion and practical examples; (2) to facilitate students' learning process by utilizing various learning technologies; and (3) to enhance students' self-learning skills by combining teaching with research-based evidence.

## **Pedagogical competences**

2018                      Lecture Training Program
