

Anders Falk Brekke
Klinisk Institut
KI, OUH, Forskningsenhed for Ortopædkirurgi (Odense)
E-mail: afbrekke@health.sdu.dk

Uddannelse

2000 Autorisation som fysioterapeut
2013 Kandidat i fysioterapi. Cand. Scient.fys., Syddansk Universitet
2020 Ph.d. Sundhedsvidenskabelige Fakultet, Klinisk Institut, Syddansk Universitet
2024: Certificeret projektleder, fra Promentum København (CVR 43477390)

Ansættelse

2000 - 2009 Private physiotherapy practice
2009 - 2015 Adjunkt, Fysioterapeutuddannelsen, Professionshøjskolen Sjælland
2015 - nu Lektor, Fysioterapeutuddannelsen, Professionshøjskolen Absalon
2016 - 2020 Ph.d. studerende, Ortopædkirurgisk Forskningsenhed, SDU
2022 Forskningsassistent, Ortopædkirurgisk Forskningsenhed, SDU
2022 - 2025 Postdoc (deltid), Den Ortopædkirurgiske Forskningsenhed, SDU

Videnskabelige publikationer

- 1) Falk Brekke, A., Overgaard, S., Hróbjartsson, A., Holsgaard-Larsen, A. (2020). Non-surgical interventions for excessive anterior pelvic tilt in symptomatic and non-symptomatic adults: a systematic review. *EFORT open reviews*, 5(1), 37-45.
- 2) Brekke, A. F., Sørensen, A. N., Buhr, C., Johannesdottir, I. O., Jakobsen, T. L. (2020). The validity and reliability of the handheld oximeter to determine limb occlusion pressure for blood flow restriction exercise in the lower extremity. *International Journal of Sports Physical Therapy*, 15(5), 783.
- 3) Brekke, A. F., Holsgaard-Larsen, A., Torfing, T., Sonne-Holm, S., Overgaard, S. (2021). Increased anterior pelvic tilt in patients with acetabular retroversion compared to the general population: A radiographic and prevalence study. *Radiography*, 28(2), 400-406.
- 4) Johansson, M., Nielsen, C. P., Brekke, A. F., Lindahl, M. (2021). Return to physical activity six months after fracture—a prospective cohort study. *European Journal of Physiotherapy*, 23(4), 241-247.
- 5) Falk Brekke A., Overgaard S, Musmann B, Poulsen E, Holsgaard-Larsen A. (2022). Exercise in patients with acetabular retroversion and excessive anterior pelvic tilt: A feasibility and intervention study. *Musculoskeletal Science and Practice*. 61:102613.
- 6) Naili, J.E., Brekke, A.F., Simonsen, M.B., Hirata, R.P., Overgaard, S., Holsgaard-Larsen, A. (2023). Change in functional biomechanics following a targeted exercise intervention in patients with acetabular retroversion and femoroacetabular impingement syndrome. *Gait & Posture*, 100(2), 96-102.

Konference præsentationer (oral)

- 1) Brekke AF., Eriksson N., Bilde MS., Pessoto RH., Holsgaard-Larsen A. Improved functional biomechanics during squat following an exercise program targeting excessive anterior pelvic tilt in patients with symptomatic hip dysplasia. ESMAC virtual conference Oct. 14 2021. Abstract published in *Gait & Posture*, Volume 90, Supplement 1, p. 19-20 (Oct 2021)
- 2) Brekke AF., Overgaard S., Musmann BR., Poulsen E., Holsgaard-Larsen A. A home-based exercise and activity modification program in patients with acetabular retroversion and excessive anterior pelvic tilt: A feasibility and intervention study. Accepted for oral presentation at the Danish Orthopedic Society Congress (Oct. 2020), but was published as an abstract due to Covid-19.
- 3) Brekke AF., Sørensen AN., Madsen CSL., Johannesdottir IO, Jakobsen TL. The validity and reliability of the handheld oximeter to determine limb occlusion pressure for blood flow restriction exercise in the lower extremity. Oral presentation at the Scandinavian Sports Medicine Congress, Denmark (Jan. 2020).
