Qualifications (educations and courses)

2019	Danish Association of Masters and PhDs - Negotiation and Salary course
2018	The Danish Association of Masters and PhDs - union representative course in organization
2018	The Danish Association of Masters and PhDs - into to the union representative role
2016	SDU leadership induction program
2015	SDU course in writing project applications
2013	SDU course in PhD supervision
2011	Education in project management at University of Southern Denmark
2010	Participated in the "Winter University in Innovation", University of Southern Denmark
2010	Ph.D. degree was awarded the first of December for the thesis: "Learning through action with digital tools in physical education teacher education."
1998-2008	30 ECTS PhD courses within qualitative research methods, phenomenological body philosophy, learning theoretical and didactic perspectives as well as action research methodologies and methods
2001	Professional postgraduate teacher training at the University of Southern Denmark
2000	Participated in the seminar International Visitors Workshops 2000 on Problem Based Learning (PBL), Maastricht, Holland
1999	Master's degree: Cand. Scient in Physical Education (major) and philosophy (minor subject)
1995	Scholarship awarded by Team Denmark (8 months.)
1984	Higher preparatory examination (high school graduation) from Ribe College of Education
1982	9 months trainer course in gymnastics at the Academy of Physical Education, Ollerup, Denmark
1980	Passed carpenter trade apprenticeship

Competences - research and field of work

Research and development

Through projects and learning in my PhD education, I have in-depth knowledge and experience in action research and change processes. Further, in my work, I have collaborated with both public, private and NGO companies in innovation projects applying design research methods.

I have worked with innovation and design in the "Play and Learning – Kids' n Tweens Lifestyle" project. In this project, I have worked as a manager in developing products and services for children and adolescents. Design of the innovative artefacts was accomplished in close collaboration with the business community in creating an interactive backyard trampoline, a video platform for school sport, and the development of interactive school furniture, the iMoLearn, see <https://www.i3-technologies.com/uk/> and kidsntweens.dk.

As a research coordinator and subsequently head of the research unit, I have helped establish collaborations and write applications. I have participated in and been responsible for development and research projects concerning the design and evaluation of a video learning platform for youth players' football learning (eye4TALENT's 4player), redesigning eWall into the HandiWall for the company PlayAlive, a digital tool for adapted physical activity.

Also, design and evaluation of the digital platform "Sjakket" in the 'Real Men' project. I have developed a learning model for movement innovation (MMIL) informed by the "21st Century Skills Learning" ideas. I have researched and written on values in designing for movement. I am researching and developing movement-based methods in collaboration with five European universities in an Erasmus+ strategic project. Further, I am researching employability perspectives on sports education. These research directions feed into a well-grounded research-based innovation and entrepreneurship education in sports. A work supporting a growing Danish sports industry research-based and founded in knowledge.

Innovation and teaching

I was through several years involved in developing educational gymnastics courses, the design of new gymnastic equipment and biomechanical research and injuries studies on team gymnastics. Further, I also developed the computer program SportsPlanner - a learning and planning tool. Since 1997 I have developed and implemented project and problem-based learning (PBL) in physical education, and I have been a key person in creating the PBL-based curriculum

at the Department of Sports Science and Clinical Biomechanics (IOB) at the University of Southern Denmark (SDU). As part of this, I have in my research education worked with the development of IT-based teaching within the sports teacher training and completed an action research project with two Danish teacher training programs

I have fostered the idea behind it, and together with colleagues developed the program "Sports Innovation and Entrepreneurship (IIE)". I am currently the coordinator of the line and am part of the committee for the development and implementation of the master's track for Movement Promotion in Society. Furthermore, I have developed, been responsible for, and taught in the master's courses Sports and Design as well as Sports and Learning. I currently develop and teach the master course Innovation and Value Creation in the master's program. I was for this work awarded the 2021 DSEB's innovation and entrepreneurship prize.

Communication

I have been part of creating and organizing both Danish, Nordic and international conferences and networks. In 2004, I was the initiator of the creation of the Nordic Educational Gymnastics Network. That as Vice Chairman of the Organizing Committee of Interaction Design and Children, Aarhus, 2014. In 2017 I have together with colleagues in Denmark set up BRIDGING – the Danish movement and physical education research network. Furthermore, I have been chairing the "European Conference on Games Based Learning, which was held on the 3 and 4 October 2019 at SDU. I have been initiated, chairman, and organiser of the Nordic Sports Innovation Summit 2021. Overall, I have been a writer and co-author of 88 national and international publications and for the last 10 years have contributed to and participated in around 163 conferences, presentations, courses, workshops, and similar communicative activities. Furthermore, during the past 5 years, I have been the main applicant for 3 applications and received grants and been involved in 3 more projects.

Management

In my work developing firstly the research group Sports Learning and Activity Development and after that as head of the research unit Learning & Talent in Sport (LET'S) I have been at the forefront of formulating and implementing strategies. I have in my management work and several research and development projects gained experience with and taken responsibility for budgeting and accounting follow-up. Through this, I have acquired competencies in aligning high academic ambitions and resources, as well as communicating and legitimizing the premises that are given. I am currently a union representative for my colleagues and negotiates their salary supplements and promotes a good working environment at the department engaging in dialogue with the management at both the department and the faculty. The community best is vital for me and motivates me in my union work at my workplace. I am thus able to lead and take responsibility for teaching, facilitating design workshops and inspiring and participating in the development of teaching and innovative processes. I can sense new trends and realize them using design processes. I can take on the leadership and facilitate the development and realization of both social concepts and product development in cooperation with business partners. I have the confidence to take the initiative and lead the way in writing an application.

Positions

2013 ->	Associate Professor, affiliated with the research unit Learning & Talent in Sport (LET'S), SDU
2014–2018	Member of the censor corps for sports at the Danish universities, in pedagogy, innovation, psychology and sports practice
2010–2013	2/3 employment as a lab manager (innovation management) in the project: Play and Learning - Kids'n Tweens Lifestyle, an EU project supported by the European Regional Development Fund
2003–2013	Associate professor without research duty in educational gymnastics, learning and pedagogy, SDU
2009–2010	Member of the Study Board for program: Sport and Health at the Faculty of Health Sciences, University of Southern Denmark
2002–2006	Member of the university colleges' censorship corps at teacher training programs
2000–2002	Assistant professor in educational gymnastics and practical teaching, SDU
1999–2000	Temporary assistant professor in educational gymnastics and in pedagogical development project, SDU
1998 – 1999	Scientific assistant on development project; intervention with ICT in physical education, SDU
1994–1999	Teaching assistant in fundamental physical training and educational gymnastics, SDU
1991–1997	Teaching assistant in human biology at the Institute of Sports Science, University of Odense
1989	Ballgame teacher at Ryslinge Folk High School
1986–1987	Working as a carpenter in Haderslev
1984–1986	Teacher at "Vojens Ungdomsskole" in boys gymnastics and physics and chemistry
1980–1981	9 months stay in Canada, (work within the carpentry, masonry and painting profession and construction management)

Research and development funding

2021	University incubation-education and strategic bridging of start-ups into the sports industry – Lars Elbæk main applicant awarded DKK 296,620.- from Fonden for Entreprenørskab
------	--

2020	Method Cards for Movement-based Interaction Design – Lars Elbæk main applicant for Erasmus+ (KA203-2020-012) strategic project with a grant at a maximum of € 303,532.00
2019	VR and AR technology blend for cross-location teaching in physical movement and health domain: Investigation with two innovation and entrepreneurship programmes' students - Main applicant Md. Saifuddin Khalid, co-applicant Lars Elbæk granted DKK 99,570 from SDU's internal teaching development pool
2018	21st Century Employability Goals of Higher Education: Aligning Authentic Learning Goals of Courses and Self-Determination of Students: Md. Saifuddin Khalid and Lars Elbæk: Receive a grant of Dkr. 207.949,- from the SDU-P spearhead funds
2018	Grant for purchasing tools and equipment for establishment of the IOB ProtoLab Move, awarded DKK 96.470, - from the Faculty of Health Sciences 2018 dean's funds
2016	Part application for Real Men project in co-operation with Dansk Firma Idrætsforbund: Received DKK 358.000, - from NordeaFonden
2016	Project "HandiWall" redesign of eWall to HandiWall: Received DKK 160.456, - from the Region of Southern Denmark
2016	Evaluation of iMO-LEARN in collaboration with Kolding Municipality and SIS school furniture: Received from Kolding Municipality DKK 70.000, - and DKK 20.000, - from SIS international A / S
2015	Received DKK 300.000 from the Ministry of Culture, "Application for visiting professor Dr. Natalia Stambulova." For a 10% professorship
2014	Received part grant of DKK 463.500, - for follow-up research under the EU market maturation fund in the project: "eye4TALENT; Talent Bank and Player Universe "
2013	Received DKK 300.000 of SDU POC funds for further development of digital elements in iMoLearn
2005	Received DKK 90.000, from the Ministry of Culture's Sports Research Fund - operation grants for the PhD project: "Learning during Intervention with Digital Tools in Physical Education Teachers Education"
1995	Received kr. 80.000, - Team Denmark, scholarship

Organizing conferences, workshops, and courses

2021	initiator, organizer and chairman of the Nordic Sports Innovation Summit, 26 August, University of Southern Denmark
2019	Chairman of the 13th European Conference on Games Based Learning 3 - 4 October, Odense, Denmark
2018	To count and tell in research and practice; Conference in the Danish movement and sports education research network 8.11. 2018, Brandbjerg Folk High School
2017	Research seminar: Seminar on qualitative methods in movement and sports education research, Wednesday 29 November. Sports Academy Bosei, Præstø
2014	The 13th international conference on Interaction Design & Children (Lars Elbæk – Organizer, Co-chair), Aarhus, Denmark, 17th Jun 2014 → 20th Jun
2013	Next Practice in Physical Education and Movement Science, Lars Elbæk (Organizer), Odense, DK, 6 – 8 May
2012	Planning and participation in design workshop in the development of school furniture for physical activity and learning, Lars Elbæk (lab-leader in movement and learning in the project "Leg and Learning - Kids'n Tweens Lifestyle"), Vejle, Denmark, Jan. 5.
2011	"Why do we bother?" Institut for Idræt og Biomekanik, (organisator af konference i projektet "Leg og Læring - Kids'n Tweens Lifestyle") Odense, Danmark, 2. dec.
2010	Co-organizer and participated in Play and Learning - Kids n 'Tweens Lifestyle conference: "From Trend to Product" at Hotel Legoland in Billund (30-31 August)
2009	The course series: Teacher development program on the use of video in sports education during the LIKA project, at the Swedish Gymnastics and Sports Academy in Stockholm (Start 02 Feb. 2009. End of April 20)
2010	Planned and participated in design gathering for the Interactive Trampoline in the project Play and Learning - Kids n 'Tweens Lifestyle (26-27 August)
2002	Course leader for the Teachers' Training Course "ICT and Sports" and taught the course in the module "ICT and Educational Gymnastics" (20-21 March)

Network, cooperation, and exchange

2018 ->	Initiative to establish the research network BRIDGING - The Danish Movement and Physical Education Research Network, that aim to arrange a research seminar / conference each year
2018	Research Sabbatical (4 months.) at Human Movement and Nutrition Science at the University of Queensland, Brisbane Australia
2010	Organizer of Play and Learning - Kids n 'Tweens Lifestyle network Study Tour to Copenhagen (April 28)
2008–2009	Research exchange (6 months) at "Gymnastics and Sports Academy in Stockholm", affiliated with the pedagogical research unit
2004–2013	The initiator of the formation of the professional network Nordic Educational Gymnastics Network

Evaluations and editorial work

2021	Reviewer on two paper for the CHI22 conference
2018	Game competition judge at: 12th European Conference on Game-Based Learning ECGBL 2018: Hosted By SKEMA Business School Sophia Antipolis, France, 4 - 5 October 2018
2016	CAMPUS SLAUGHTER AND CITY CENTER - A CONNECTION (judges in architectural competition)
2015	Chairman of the PhD evaluation committee for the thesis: "De-escalation - handling of violence and prevention of coercion on psychiatric departments - An action-oriented action research collaboration" - filed by Lene Lauge Berring
2013 ->	Co-initiator and steering committee member in establishing the digital magazine 'Forum for Sports' under https://tidsskrift.dk/forumforidraet
2007	Ministerial working group on trampoline regulations
2001-2012	Editor of the journal "Focus - Journal of Sport"
