Current employment

Department of Technology and Innovation
SDU
Odense M
1. Jul 2023 → present

Associate Professor

SDU Innovation and Design Engineering
SDU
1. Jul 2023 → present

I teach and supervise engineering student in value creation through product innovation and design engineering, including design for sustainability and circular economy.
I also hold a special interest in utilizing digital design tools for optimizing design processes.

Areas of responsibility

Product Development and Innovation, Bachelor - Teaching and Supervision
Product Development and Innovation, Master - Teaching and Supervision

Professional Work Experience

I have more than eleven years of professorial work experience within R&D and product development. I have been working for global marked leading companies in Europe as well as North America, and designing a wide range of product for different markets.

2019 - 2022	Teaching Assistant Professor - University of Southern Denmark
2018 – 2019	Design Engineer (Luggage) - Thule Sweben AB
2016 – 2018	Design Engineer (Sport & Cargo) - Thule Sweben AB
2014 - 2016	Mechanical Design Engineer - Med-Eng Systems (Safariland)
2013 - 2013	PLM/PDM Consultant (Engineering CAD Supporter) - Siemens Wind Power
2011 - 2013	Part Designer (Mechanical Design Engineer) - LEGO Group
2008 - 2011	Product Development Engineer and Consultant - DIS A/S

Throughout my career I have continuously strived to be curious, expose myself to new challenges and learning opportunities, and make a positive impact. I am passionate about sharing my know-how and motivating the engineers of tomorrow.

Education

2021 - Present	Master in Business Administration (MBA) - University of Southern Denmark
2004 - 2008	Bachelor of Engineering, Integrated Design - University of Southern Denmark

Language skills
