

Mengliang Zhang: Associate professor (lektor)
Neurobiology
Department of Molecular Medicine
University of Southern Denmark
J. B. Winsløvs Vej 21
5000 Odense C
Email: mzhang@health.sdu.dk
Phone: 65509188

Ansættelse

Institut for Molekylær Medicin

SDU

4. sep. 2023 → present

Lektor

Neurobiologisk Forskning

SDU

Odense C

4. sep. 2023 → present

Curriculum Vitae

Education and academic degrees:

1986-07-15. Bachelor degree in medicine. Liaoning Medical University, Jinzhou, P R China.

1991-07-15. Master degree in neuroanatomy. Dalian Medical University, Dalian, P R China.

2001-04-25. PhD degree in neurophysiology. Lund University, Lund, Sweden.

Postdoc:

2001-09 – 2004-07. Postdoctoral Research Scholarship, Pennsylvania State College of Medicine, U.S.A.

Previous positions:

2013-01 – 2018-04. Researcher (forskare), Lund University, Neuronano Research Center.

2004-07 – 2016-06. Associate professor (lektor, external financed), Department of Neuroscience and Pharmacology, University of Copenhagen.

1994-11 – 1997-03. Visiting Scholar, Department of Cell Biology, Linköping University, Sweden.

1991-08 – 1994-11. Lecturer, Department of Anatomy, Dalian Medical University, P R China.

1986-08 – 1988-08. Physician, Diaobingshan Municipal Hospital. Diaobingshan, P R China.

Honors:

- 2008, I was appointed as a guest professor in Chengde Medical University, Chengde, P R China.

- 2009, I was appointed as an honorary director of Basic Medical Research Institute and an honorary director of Spinal Cord Injury and Rehabilitation Laboratory, Chengde Medical University, Chengde, P R China.

- 2016, Guest researcher at Copenhagen University.

- 2018, Guest researcher at Lund University.

Memberships of academic societies:

Society for Neuroscience (SFN), USA.

Federation of European Neuroscience Societies (FENS).

Danish Society for Neuroscience.

Journal peer reviewer:

Experimental Neurology, BMC Neuroscience, Neuroscience Letters, European Journal of Neuroscience, Cellular and Molecular Neurobiology, Nutrients, Journal of Neurophysiology, International Journal of Physical Medicine & Rehabilitation, Journal of Spine, registered reviewer for Elsevier.

Editorial board:

BioMed Research International (Neuroscience)

International Scholarly Research Notices (Neuroscience)

International Neuropsychiatric Disease Journal

Archives of Current Research International (Neurology)

Neural Regeneration research

Other board member:

Chairman of a PhD dissertation committee: 2018, University of Southern Denmark.

Member for two PhD students' dissertation committee: 2014, Lund University.

Organization activity:

Symposium at 2012 FENS meeting in Barcelona (14-18 July, 2012) with the title: Serotonin in normal and pathological spinal motor function (S23, 16/07/2012, 09:45 - 11:15). I am a co-chair for this symposium.

Supervision of PhD students

I am the main supervisor for 3 PhD students:

- Natalya Sukiasyan, defended in March 2013.
- Liqun Ren, defended in April 2014.
- Marlene Storm Andersen: started in October 2018.

Post-doctoral and guest researchers:

One postdoc, more than 10 guest researchers, master/bachelor students and research assistant worked and supervised by me in the lab since 2008.

Teaching portfolio

1. ORMEL PÆDAGOGISK UDDANNELSE

Introduction of University Pedagogy, University of Copenhagen, 2010

Problem-Based Learning, Lund University, 2013

Research Supervision, Lund University, 2014

Perspectives on Learning, Lund University, 2014

2. UDDANNELSEADMINISTRATIVE OPGAVER

No. However, back in the 1990's in China, at Dalian Medical University, I worked as a course leader for several human anatomy courses.

3. ERFARING MED UNDERVISNING, VEJLEDNING OG EKSAMEN

a. ERFARING MED UNDERVISNING

Started teaching 1988. My teaching has mainly been focusing on human anatomy. However, recently at Lund University, Sweden, I also taught a course involving different subjects, such as anatomy, embryology, histology and physiology. The teaching formats include lectures and group problem-based learning (PBL) and group demonstration/instruction.

b. ERFARING MED VEJLEDNING

At Dalian Medical University I have been course leader for human anatomy for medical students for a year (1993-1994). At SDU, since 2018, I participated in teaching of anatomy on Modules 6 and 7. I participate in the instruction for dissection course for Module 2 as well.

c. ERFARING MED EKSAMEN

For all the courses I taught I also participated in writing examination questions and correcting the examinations.

4. METODER, MATERIALER OG REDSKABER

Lecturing (overhead, PowerPoint, blackboard, Zoom online teaching), problem-based learning (PBL) for small groups of students, group teaching (dissection and demonstration of human body structures in laboratories).

5. UDDANNELSESUDVIKLING OG UNIVERSITETSPÆDAGOGISK (FØLGE)FORSKNING, HERUNDER PÆDAGOGISKE PRISER

Back in 1990's in China, at Dalian Medical University, I did research in pedagogy and I have published two pedagogic papers in human gross anatomy teaching. One of the papers was rewarded a pedagogic prize by the university.
