4. Metoder, materialer og redskaber

Lectures: I use case-based learning and ask questions in plenum regardless of the number of students. I carefully plan and analyse the lectures in accordance with the target audience. I also have experience with Online and hybrid-lectures.

5. Uddannelsesudvikling og universitetspædagogisk (følge)forskning

In my capacity as academic responsible for B12 I have adjusted the content of the lectures in according to the learning goals and a "Plan of action" based on feedback from the students.
