Auditory Profile-Based Hearing Aid Fitting: Self-Reported Benefit for First-Time Hearing Aid Users

Cañete, O. M., Loquet, G., Sánchez-López, R., Hougaard, D. D., Schnack-Petersen, R., Gaihede, M., Schmidt, J. H., Hammershøi, D. & Neher, T., 8. Feb 2024, In: Audiology Research. 14, 1, p. 183-195

Hearing Loss, Hearing Aid Use, and Risk of Dementia in Older Adults

Cantuaria, M. L., Pedersen, E. R., Waldorff, F. B., Wermuth, L., Pedersen, K. M., Poulsen, A. H., Raaschou-Nielsen, O., Sørensen, M. & Schmidt, J. H., 8. Feb 2024, In: JAMA Otolaryngology - Head and Neck Surgery. 150, 2, p. 157-164

Health position paper and redox perspectives - Disease burden by transportation noise; Noise, disease, and redox processes

Sørensen, M., Pershagen, G., Thacher, J. D., Lanki, T., Wicki, B., Röösli, M., Vienneau, D., Cantuaria, M. L., Schmidt, J. H., Aasvang, G. M., Al-Kindi, S., Osborne, M. T., Wenzel, P., Sastre, J., Fleming, I., Schulz, R., Hahad, O., Kuntic, M., Zielonka, J., Sies, H., & 4 othersGrune, T., Frenis, K., Münzel, T. & Daiber, A., Feb 2024, In: Redox Biology. 69, 102995.

Comparison of Hearing Aid Fitting Effectiveness With Audiograms From Either User-Operated or Traditional Audiometry in a Clinical Setting.

Pedersen, C., Pedersen, E. R., Laugesen, S., Sanchez-Lopez, R., Nielsen, J., Sørensen, C. B. & Schmidt, J. H., 2024.

Evaluation of the Benefits of Replacement Hearing Aids (HAs) and Cochlear Implant (CI) and Hearing Aid in a Bimodal Solution With Hearing in Noise Test (HINT), Pupillometry and the Speech, Spatial and Qualities of Hearing Scale (SSQ12).

Jakobsen, Y. & Schmidt, J. H., 2024.

The Relationship Between Tinnitus Annoyance and Work-Related Noise Exposure History in Older Adults With Sensorineural Hearing Loss.

Houmøller, S. S., Tsai, L-T., Wolff, A., Narayanan, S. K., Hougaard, D. D., Gaihede, M., Godballe, C. & Schmidt, J. H., 2024.

Difference in SII provided by initial fit and NAL-NL2 and its relation to self-reported hearing aid outcomes

Narayanan, S. K., Rye, P., Houmøller, S. S., Wolff, A., Hougaard, D. D., Gaihede, M., Schmidt, J. H. & Hammershøi, D., 19. Dec 2023, (E-pub ahead of print) In: International Journal of Audiology.

Sudden Sensorineural Hearing Loss Following Immunization With BNT162b2 or mRNA-1273: A Danish Population-Based Cohort Study

Dankier, P., Cleary, B., Hallas, J., Schmidt, J. H., Ladebo, L., Jensen, P. B. & Lund, L. C., Dec 2023, In: Otolaryngology - Head and Neck Surgery (United States). 169, 6, p. 1472-1480

A history of occupational noise exposure is associated with steep-slope audiograms and poorer self-reported hearing-aid outcomes

Houmøller, S. S., Tsai, L-T., Wolff, A., Narayanan, S. K., Hougaard, D. D., Gaihede, M., Hammershøi, D., Neher, T., Godballe, C. & Schmidt, J. H., 1. Nov 2023, (E-pub ahead of print) In: International Journal of Audiology.

User-operated audiometry—an evaluation of expert vs. non-expert headphone placement

Sørensen, C. B., Gyldenlund Pedersen, R., Nielsen, J., Sidiras, C., Schmidt, J. H. & Pedersen, E. R., Oct 2023, In: International Journal of Audiology. 62, 10, p. 938-945

AMTASTM and user-operated smartphone research application audiometry-An evaluation study

Sørensen, C. B., Adams, T. B., Pedersen, E. R., Nielsen, J. & Schmidt, J. H., 14. Sept 2023, In: PLOS ONE. 18, 9, 18 p., e0291412.

Adapting to New Hearing Aids and Hearing Aid Adjustments in Adult Danish Users

Narayanan, S. K., Houmøller, S. S., Wolff, A., Hougaard, D. D., Gaihede, M., Schmidt, J. H. & Hammershi, D., 6. Sept 2023, In: American Journal of Audiology. 32, 3, p. 526-542

A History Of Occupational Noise Exposure Is Associated With Steep-Slope Audiograms And Poorer Self-Reported Hearing-Aid Outcomes.

Houmøller, S. S., Tsai, L-T., Wolff, A., Narayanan, S. K., Hougaard, D. D., Gaihede, M., Hammershøi, D., Neher, T., Godballe, C. & Schmidt, J. H., 23. Aug 2023.

Cochlear Implant Candidates Prior Decision Of Ci Surgery.

Methods, material and tools

The lectures that I organize is a mixture of presentation of knowledge to students and active involvement from the students in the class. I use small quiz instruments to make the students engaged in the teaching and to make them aware of areas where they have missed knowledge. The quizzes are also available to the students after the class, so they can train with the material.

I have made videos of most of my presentations in the class room so students can review or prepare better for the class.

This make it easier to skip parts of the content if it is known by the students and if it is judged to be less important. In Medical Audiology III I also use active participation from the students where they have to prepare the lecture themselves following some specific instructions. I give them feedback as well as their fellow-students are encouraged to give feedback and ask questions.

I use a lot of discussion and involving teaching especially when we discuss cases in Medical Audiology III, but also related to more specific scientific paper discussions in particular in the course prophylactic audiology. Here the students are encouraged to study scientifically papers and we discuss the results and findings. This will enable the students with some knowledge to do this before their final year with the master thesis.

Development of education, pedagogical research and prizes

Most of the development of educations that I have been involved in is related to my tasks in the study councils of Audiology and Audiologopedia (Speech and language Pathology). Especially, when the two study directions of Audiology (Technical Audiology and Pedagogical Audiology) was merged into Audiology, there was a lot of decisions to take how to improve the education in order to meet the demands from stakeholders. I was participating in meetings with stakeholders that typically employ the students after they ended the education. Especially, my focus have very much been on creating an education tailored for the societal need.
