

COURSE CERTIFICATE

for the PhD Course

GCP and investigator-initiated clinical trials

has been awarded to

Dorthe Grüner Nielsen

Course content: PhD course in Good Clinical Practice (GCP) and academic clinical trials with medicinal products.

The course is focused on the practical aspects of how to comply with national regulations for clinical trials of medicines in humans. The principles of GCP and all requirements regarding the protocol of the project, the application, investigational medical products, the conduction of the trial, current reporting, monitoring, quality assurance of data, and data handling was included. This course meets the requirement for investigators, participating in the conduction of clinical drug trials, of knowledge of the principles of GCP (BEK 695 12/06/2013, § 5, stk. 4).

Course director: Tanja Bidstrup

Course dates: 12-03-2018 - 14-03-2018

ECTS-points: 2,4

Graduate programme: Clinical Research
