Online (ZOOM)
https://zoom.us/webinar/register/WN_CVFea-oGQ72F3NkjcT2vBg
- To participate in person (address: 北京市海淀区成府路160号三才堂写字楼六层),
please contact **Emma**:
emmapeng@mail.tsinghua.edu.cn ☎ (+86)186-1112-6393

NOTE

We agreed that the presentations should follow three guiding principles:

- **Forward-looking** – not so much about what kind of research one has done, but more on what lies ahead. We want to share ideas, which we can feed into collaborations.
- **Cross-cultural** - Keep in mind that the talk should speak to the context in the other country. That is, a Danish speaker should reflect on the Chinese context in order to facilitate and ease cross-culture translation.
- **Practitioner-focused** - Both centres are focused on developing solutions that are of relevance to a community of practitioners. The presentations should reflect on it is relevant for a community of practitioners and relevant implications for broader applications.
