Erfaring med undervisning, vejledning og eksamen

2015: Group training, proper examination papers and contribute to the oral examination in the introduction task for medical students in Module 1.

2011-2015: Training in research of medical students in clinical internship at the Department of Endocrinology, Odense University Hospital in research.

Metoder, materialer og redskaber

It is important to include the students, and to motivate them to study

Uddannelsesudvikling og Universitetspædagogisk Forskning

I work continuously to develop and adapt teaching in order to enhance students' learning.
