### Videnskabsteori og Etik - Modul B6, Medicin og Biomekanik

& Anders Larrabee Sønderlund  
18/12/2018 → 20/12/2018

## Pedagogical Training

2020                      Lecturer Training Program - SDU

## Teaching Experience

Since 2010, I have taught undergraduate courses and co-supervised graduate diploma students at universities in Australia, the UK, and Denmark. My teaching experience specifically includes the following courses and responsibilities:

2017-present

Philosophy of Science  
Undergraduate medical school curriculum,  
University of Southern Denmark, Denmark.

2012-2014

Teaching support staff  
Undergraduate psychology curriculum,  
University of Exeter, UK.

2010

Co-supervisor of four graduate diploma students majoring in psychology (two cognitive psychology, two social psychology),  
Deakin University, Australia.

2009-2011

Cognitive Psychology  
Undergraduate psychology curriculum,  
Deakin University, Australia.

2009-2011

Social Psychology  
Undergraduate psychology curriculum,  
Deakin University, Australia.

2009-2011  
Research Methods in Psychology  
Undergraduate psychology curriculum,  
Deakin University, Australia.

## **Teaching Methods**

In my teaching, I work mainly with student-activation methods that are inspired by Albert Bandura's Social Learning Theory, emphasizing personal ownership in learning. To this end, I use various methods, including blended learning and think-pair-share approaches. I strive to engage the students in group-based and active classroom participation and discussion. I also use interactive software tools to activate students, including PollEverywhere and Kahoots.
