Teaching portfolio

1. Formal Educational Training

Course in oral presentation, three days master class course for professors and heads of research units at Odense University Hospital, 2020.

Course in University Pedagogy Danish spoken, two days course, Faculty of Health Sciences, University of Southern Denmark, 1994.

2. Administrative Tasks related to Education

Head of the profile at the education in medicine (master of science) in Innovation and clinical management at University of Southern Denmark.

Course leader of the annual five days Ph.D. course with in TTRN Transatlantic Telemedicine Research Network August 2019 at University of Southern Denmark, Odense.

Planning of the annual Ph.D. course with in TTRN Transatlantic Telemedicine Research Network 2017 (Aalborg University), 2018 UC Davis.

Planning of the annual summer courses 2014-2018 at Copenhagen University in "Development of the healthcare system of the citizens" (Borgernes sundhedsvæsen – på vej til et proaktivt og individorienteret sundhedsvæsen) in collaboration with course leader Lars Kayser.

Participation in planning of the Health Technology Assessment course 2016 and 2017 at Mærsk Mc-Kinney Møller Institute, University of Southern Denmark in collaboration with course leader Carla Douw.

Planning of teaching within the subject "mini-HTA" at the two annual courses for consultants (Forskningstræning: Grundkursus 2) 2013-2017, Faculty of Health Sciences, University of Southern Denmark.

Planning of a number of 1-2 day courses on "How to use MAST in assessment of telemedicine services" in Odense, Middelfart, Århus, Copenhagen, Berlin, Treviso, Paris, Rome, Bilbao and Soul 2012-2017.

Chair for the assessment committee concerning the assessment of applicants for the position as Associate professor in e-mental health at the Department of Clinical Research, University of Southern Denmark, 2016.

Chair for the assessment committee concerning the assessment of applicants for the position as assistant professor in psychology and welfare technology at Department of Psychology, University of Southern Denmark, 2015.

Responsible for planning and curriculum of the semester courses in "Health Economic Evaluation" and "Social Science Research Methods" (two times for both courses) for students in Economics, at Institute for Economics, Odense University, during the years 1995-1997.

3) Teaching experience and experience with supervision and examination

Teaching experience:

Teaching at Department of Business and Management, LUISS Guido Carli University & Public Administration, Rome, Italy, January 2018, on the subject: "How to do Hospital Based HTA?"

Teaching at Institute of Psychology, University of Southern Denmark, November 2017, on the subject: "Assessment of the value of eHealth by use of MAST".

Teaching at the course in Clinical Engineering, October 2017: Half days course in mini-HTA, Odense University Hospital.
Teaching at the 1-day course in "How to use MAST in assessment of telemedicine" for representatives from the Mexican Ministry for Health, September 2017, Mexico City.

Teaching at the Copenhagen University Summer School on the course "Development of the healthcare system of the citizens" (Borgernes Sundhedsvæsen – på vej til et proaktivt og individorienteret sundhedsvæsen), August 2017 on the subject: "How to assess the value of ehealth services?"

Teaching at the preconference course "Hospital Based HTA" at the HTAi World Conference in Rome, June 2017, on the subject: "How to do Hospital Based HTA?" and "What are hospital managers need for information in decision making on investment in health care technologies?"

Teaching at the course Market Access: The economic decision makers, Danish Association of the Pharmaceutical Industry (Lif), June 2017, on the subject: "How does hospitals make decisions on investment in innovative medical technologies?"

Teaching at the course in Health Economics, KORA, May 2017 on the subject: "Hospital based HTA".

Teaching at the 1-day MAST course for Patient@Home partners, University of Southern Denmark, February 2017.

Teaching at the course for consultants (Forskningstræning: Grundkursus 2, Faculty of Health Sciences, University of Southern Denmark, January 2017, on the subject: "Hospital based HTA"

Teaching at the Master in IT Management education at Aalborg University, December 2016, on the subject: "How to assess the value of eHealth IT interventions?"

Teaching at Mærsk Mc-Kinney Møller Institutet, SDU, at the course in Health Informatics, November 2016, on the subject: "Assessment of the value of innovative medical technologies"

Teaching at Institute of Psychology, University of Southern Denmark, November 2016, on the subject: "Assessment of the value of eHealth".

Teaching at Department of Business and Management, LUISS Guido Carli University & Public Administration, November 2016 Rome on the subject: "How to do Hospital Based HTA and how to assess the value of telemedicine?"

Teaching at the course in Clinical Engineering, October 2016: Half days course in mini-HTA, Odense University Hospital.

Teaching at the course for consultants (Forskningstræning: Grundkursus 2, Faculty of Health Sciences, University of Southern Denmark, September 2016, on the subject: "Hospital based HTA"

Teaching at the Copenhagen University Summer School on the course "Development of the healthcare system of the citizens" (Borgernes Sundhedsvæsen – på vej til et proaktivt og individorienteret sundhedsvæsen), August 2016 on the subject: "How to assess the value of ehealth services?"

Teaching at the course Market Access: The economic decision makers, Danish Association of the Pharmaceutical Industry (Lif), June 2016, on the subject: "How does hospitals make decisions on investment in innovative medical technologies?"

Teaching at the preconference course on Hospital Based HTA at HTAi, Annual meeting in Tokyo, May 2016: "Hospital managers need for information when making decision on investment in health technologies".

Teaching at the course i Health Economics, KORA May 2016 on the subject: "Hospital based HTA."

Teaching at the course for consultants (Forskningstræning: Grundkursus 2, Faculty of Health Sciences, University of Southern Denmark, January 2016, on the subject: "Hospital based HTA"

Teaching at the Copenhagen University Summer School on the course "Development of the healthcare system of the citizens" (Borgernes Sundhedsvæsen – på vej til et proaktivt og individorienteret sundhedsvæsen), August 2015 on the subject: "How to assess the value of ehealth services?"

Teaching at the course in Clinical Engineering, October 2015: Half days course in mini-HTA, Odense University Hospital.

Teaching at the course for consultants (Forskningstræning: Grundkursus 2, Faculty of Health Sciences, University of Southern Denmark, September 2015, on the subject: "Hospital based HTA"

Teaching at the preconference course "Hospital Based HTA" at the HTAi World Conference in Oslo, June 2015, on the subject: "How to do Hospital Based HTA?" and "What are hospital managers need for information in decision making on investment in health care technologies?"

Teaching at the course in Health Economics, KORA May 2015 on the subject: "Hospital based HTA".

Teaching at the course Market Access: The economic decision makers, Danish Association of the Pharmaceutical Industry (Lif), June 2015, on the subject: "How does hospitals make decisions on investment in innovative medical

technologies?”

Teaching at the 1-day MAST course for Patient@Home partners, University of Southern Denmark, January 2015.

Teaching at the course in Clinical Engineering, October 2014: Half days course in mini-HTA, Odense University Hospital.

Teaching at the course for consultants (Forskningstræning: Grundkursus 2, Faculty of Health Sciences, University of Southern Denmark, September 2014, on the subject: “Hospital based HTA”

Teaching at the Copenhagen University Summer School on the course “Development of the healthcare system of the citizens” (Borgernes Sundhedsvæsen – på vej til et proaktivt og individorienteret sundhedsvæsen), August 2014 on the subject: How to assess the value of ehealth services?

Teaching at the preconference course “Hospital Based HTA” at the HTAi World Conference in Washington, June 2014, on the subject: “How to do Hospital Based HTA?” and “What are hospital managers need for information in decision making on investment in health care technologies?”

Teaching at the course in Clinical Engineering, October 2013: Half days course in mini-HTA, Odense University Hospital. Teaching at the preconference course “Hospital Based HTA” at the HTAi World Conference in Seoul, Korea, June 2013, on the subject: “How to do Hospital Based HTA?” and “Which information do hospital managers need in decision making on investment in health care technologies?”

Teaching at the course in Clinical Engineering, October 2012: Half days course in mini-HTA, Odense University Hospital. Teacher at the semester courses in “Health Economic Evaluation” and “Social Science Research Methods” (two times for both courses) for students in Economics, at Institute for Economics, Odense University, during the years 1995-1997.

Supervision of Ph.D. students:

Supervisor (co-supervisor) for Ph.D. student in public health, 2012-2016 on a thesis on the subject: “Assessment of transferability of studies of innovative health technologies”.

Supervisor (co-supervisor) for Ph.D. student in economics, 2013-2016 on a thesis on the subject: “Early Assessment of the potential for Routine adoption of innovative medical Technologies in Hospitals Assessment of transferability of studies of innovative health technologies”.

Supervisor (co-supervisor) for Ph.D. student in telerehabilitation, 2014-2017 on a thesis on the subject: “Telerehabilitation for patients with COPD - A cross sectional study”.

Supervisor (co-supervisor) for Ph.D. student, 2017-2020, Centre for Connected Care (C3), Oslo universitetssykehus, on a thesis on the subject: “Estimating utility applying behavioural data in early technology assessment”.

Examination experience

Censor at oral examination in Social economics on Master of Public Management, the Faculty of Business and Social Sciences, University of Southern Denmark, 2006-2008.

Censor on two master theses in Health Economics, Economics Institute, the Faculty of Business and Social Sciences, University of Southern Denmark, 2011 and 2012.

Chair of an assessment committee at the PhD School at the Faculty of Business and Social Sciences, University of Southern Denmark in 2016.

Censor on oral exam in HTA at the education in Welfare Technology at Mærsk Mc-Kinney Møller Institute, Faculty of Engineering, University of Southern Denmark, 2015-2016.

4) Methods, material, and tools

My teaching includes webinars, “classic” frontal lectures, seminars with group work and discussions and exercises.

Exercises are a large part of my teaching because I often teach hospital staff and employees from private companies in how to carry out HTA, use HTA-tool and apply HTA on their own health technology.

5) Reflection on your own Teaching Practice and Future Development

Based on the student evaluation and assessment of my teaching, I have a good contact to the students.
