## **Undervisningsportfolio**

### **Pædagogiske grundsyn:**

Et centralt udgangspunkt for min undervisning er, at læring handler om at binde bro mellem de studeredes erfaringsverden og den nye faglige viden, som de introduceres til gennem de enkelt fag. Et andet fokuspunkt for min undervisning er at understøtte de studerende i at overføre teoretisk viden til praktisk anvendelse.

Det er min overbevisning, at indlæringen er højest, når de studerende udfordres men samtidig understøttes af klare læremål. Det er her vigtigt, at understøtte de studerendes engagement både i deres forberedelsestid, i forbindelse med selve undervisningen, og efterfølgende.

Min undervisning er derfor oftest tilrettelagt en kombination af (1) en forberedelsesdel, hvor de studerende med udgangspunkt i videnskabelige tekster og ved hjælp af tilhørende spørgsmål identificerer og indlærer centrale fagbegreber, (2) undervisningsdelen, som indeholder en dybere teoretisk gennemgang, herunder diskussion, øvelse og feedback, der tager udgangspunkt i cases fra de studerendes egne erfaringsverdener kombineret med mere specifikke virksomhedscases.
