- Courses arranged by University of Southern Denmark: Designing blended learning, Supervision- Roles and Relations, Use student response systems, Teaching and learning with social media

Educational administrative tasks

Responsible for the following courses on the Master in Physiotherapy, the University of Southern Denmark (2018-):

- Introduction to physiotherapy history, theoretical basis, and basic information competence
- Basic statistics and epidemiology
- Quality development of physiotherapy

Responsible for the elective course in sports and exercise medicine for medical bachelor students at the University of Southern Denmark (2018).

Teaching and supervision experience

Since 20012, experience with teaching in different courses at the BSc and MSc level at both AarhusUniversity and University of Southern Denmark. Supervisor for a considerable number of BSc and MSc thesis. Supervisor for three ongoing Ph.D. projects.

Methods, materials and tools

Applying active teaching and learning through a combination of in-class and out-of-class activities via blended learning. In-class activities include traditional lectures using power-point or similar, lab exercises, and teaching of smaller groups. Out-of-class activities include E-activities such as screencasts and student response systems like PollEveryWhere and web-based for a to initiate discussion amongst students, allowing for peer-feedback content-specific items from a particular course.
